Relative to memorializing the Congress of the United States to initiate proceedings therein for the submission to the several states of an amendment to the Constitution of the United States giving Congress power to enact a uniform divorce law.

WHEREAS, The American Bar Association and the leading members of the legal profession in various states, and prominent jurists and publicists have, after extensive investigation of conditions, repeatedly urged the pressing necessity for uniformity in divorce legislation; and

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California memorialize the Congress of the United States to initiate proceedings therein for the submission to the several states of an amendment to the Constitution of the United States giving Congress power to establish uniform laws on the subject of divorce throughout the United States; and be it further

SENATE JOINT RESOLUTION NUMBER TWELVE.

Relative to the protection of second-growth timber on watersheds.

WHEREAS, The presence of standing timber or brush on watersheds is essential as the only natural means of water conservation; and

WHEREAS, The conservation of the public water supply is of vital importance to the citizens of the State of California, owing to the long periods in which the rainfall is inadequate to meet public needs, and the fact that great depredation is caused by erosion when the flow of streams draining said watersheds is unrestrained; and

WHEREAS, Vast timber or forest growths located upon many of the forest reservations and public lands of the United States have been seriously depleted by the removal of trees therefrom for commercial purposes, thus making the preservation of the second-growth timber essential to the present and future natural water conservation on said watersheds; and

WHEREAS, The process invariably followed in deforesting timber lands of the first-growth trees results in unused stumps, logs and branches commonly known as "slashings" being left to dry and decay upon the ground among or near to the uncut young trees and brush, thereby greatly increasing the fire menace to which said trees and brush are subjected; and

WHEREAS, The conservation of water on many other watersheds depends entirely on the brush fields located thereon, which are in their nature highly inflammable, and subject to an increased fire hazard due to the proximity of such deforested areas upon federal reservations and public lands; now, therefore, be it

Resolved by the Senate and Assembly of the State of California jointly, That we respectfully urge the President of the United States to incorporate in a special message to Congress at the special session about to convene, the recommendation that Congress take such measures as may be necessary to require the agents of the federal government whose duty it is to protect the forest reservations and public lands of the United States, to remove from government reservations and public lands such slashings and other inflammable material as may endanger the timber and brush growth on watersheds.

PETITIONS—(OUT OF ORDER).

By consent of the Senate, the following petitions were read, out of the regular order, and ordered printed in the Journal:

SAN FRANCISCO, CALIFORNIA, April 5, 1915.

To the Honorable Members of the Senate, State of California, Sacramento, California:

GENTLEMEN: Herewith please find several printed copies of a report recently presented by a committee of five, representing the membership of the San Joaquin and Sacramento River Improvement Association, on the flood menace of the Sacramento River to the lands along the river and the delta lands along the lower San Joaquin and its tributaries as well.

This report was unanimously adopted by the trustees of this association and carries several important recommendations. I desire to particularly call your attention to the recommendation for an appropriation of $500,000.00 from the State at this session of the Legislature for continuing the work that has been under way for nearly two years on the Sacramento River between Rio Vista and Collinsville, commonly called uncorking the mouth of the river. The two mammoth hydraulic dredgers which commenced operation in the summer of 1913 have removed possibly more than 4,000,000 cubic yards of material from the bed of the river, and in places the channel width of the river has been also increased. The work that has been done by these dredgers has undoubtedly lowered the flood plane at Rio Vista by flattening the flood wave from Cache Slough to Collinsville, thus increasing the margin of safety to the city of Sacramento and the delta lands below.

This association, representing a membership of several hundred landed and other interests of the Sacramento and San Joaquin delta, has been working ceaselessly during the past six years in endeavoring to bring about a solution of the flood problem of the Sacramento River, and we take this opportunity of expressing our deep appreciation for the valuable support this great cause has received from Governor Hiram Johnson and the members of the State Legislature. We hope for the assurance that the money as needed will be provided by the State and Federal governments to carry on this work now under way from Cache Slough to Collinsville without any interruption until the work is finally completed.

Respectfully yours,

A. E. ANDERSON.

Also:

SAN FRANCISCO, CALIFORNIA, March 17, 1915.

To the Trustees and Members of the San Joaquin and Sacramento River Improvement Association:

This committee was appointed from the membership of this Association for the purpose of investigating fully and reporting to the Association the condition of the present flood menace to the Sacramento River and to all property along it, the value of the Flood Control project in protection therefrom, and a plan of active work which will assist in the early completion of the project.

The committee, accompanied by several of the trustees of this association, made an inspection of the Sacramento River in daylight from Collinsville to Sacramento on March 12th, and on the following day an inspection of the Sacramento River in daylight from Meridian to Sacramento. U. S. Assistant Engineer Chas. R. Hall accompanied our party from San Francisco to Rio Vista; U. S. Assistant Engineer H. H. Wadsworth accompanied our party from San Francisco to Sacramento, and the following day from Meridian to Sacramento. Mr. Hall and Mr. Wadsworth outlined to us the proposed comprehensive plan prepared by the California Debris Commission for control of the flood waters of the Sacramento River System from carefully prepared maps, and pointed out to us the work that has already been done on the lower river, namely, the building of the new government levees on Dos Rios Island and across Baker's Point, the widening of the channel below Baker's Point, and the dredging operations now under way along the Joseph District below Rio Vista. Engineer Wadsworth pointed out to us the location of the proposed by-passes and weirs that are intended to carry the water from Sutter Basin and the American River into the Yolo Basin. We also inspected the Knight's Landing cut, and it was explained to us by Mr. Wadsworth how the waters from Colusa Basin on the west side are to be carried through the ridge and emptied into the Yolo Basin below.

On the trip from Meridian to Sacramento your committee viewed a vast body of water, possibly 30 miles in length, and an average of 10 miles in width on each side of the Sacramento River. The lands inundated on the east side are known as the Sutter Basin Lands; the lands inundated on the west side are known as the Colusa Basin Lands. The Sacramento River from the mouth of Feather River to the head of Sutter Basin being narrow and crooked can carry but a small portion of the flood water. It must, therefore, be admitted that the lands of the Colusa Basin and the lands of the Sutter Basin can not be permanently reclaimed except by maintaining substantial levees along the river, also it is necessary to provide an outlet for the waters of Colusa Basin into the Yolo Basin, and a by-pass channel through the Sutter Basin with capacity sufficient to carry the surplus water not carried by the river proper. This surplus water must be emptied over weirs and into the Yolo Basin below Knight's Landing. The proposed by-pass through the Yolo Basin must be adequate to provide for carrying all of the flood water of the American River in addition to the water from the Colusa and Sutter Basins and a sufficient outlet for the Yolo Basin water from Cache Slough to Collinsville must be provided.

This comprehensive plan also proposes that the Sacramento River from the junction of Cache Slough, Steamboat Slough and Old River to Collinsville shall be widened to a uniform width of approximately 2700 feet, and deepened to a uniform depth of from 30 to 35 feet to provide a carrying capacity of 600,000 cubic second feet of water, and we are informed that it would take five dredgers of the type of dredgers "Sacramento" and "San Joaquin" now in use, at least six years to complete this single unit of the project, and the cost would be approximately between $8,000,000.00 and $9,000,000.00.

We now, therefore, submit the following for your earnest attention and careful consideration:

1. The flood waters of the Sacramento River system are a great menace to the lands of the Sacramento Valley above Sacramento City, and to the lower delta lands of the Sacramento and San Joaquin Rivers and their tributaries, therefore the necessity of carrying out, as speedily as possible, some comprehensive plan for the control of these flood waters.

2. The present plan as outlined by the California Debris Commission, and endorsed by the State, which plan was fully explained to this committee by U. S. Assistant Engineers Hall and Wadsworth, is, in our opinion, the only feasible and economic plan consistent with the interests of navigation and reclamation. We therefore recommend carrying out this plan as speedily as possible, and with this end in view we earnestly appeal for the support and cooperation of our representatives in Congress, and in the State Legislature, to all the commercial organizations of California, and to the individual river land owners.

3. We firmly believe that the first and most important step in the carrying out of this comprehensive plan is the enlarging of the outlet of the Sacramento River from Cache Slough to Collinsville, and we can not too strongly emphasize the necessity of bringing this fact to the attention of the State Reclamation Board and the United States engineers.

4. We are also firmly convinced that the discharge of flood water from the Sutter Basin and from the Colusa Basin and from the American River into the Yolo Basin should be regulated and controlled by the authority of the Secretary of War of the United States, so as not to permit a greater volume of water to flow through the Yolo Basin that the river can accommodate from the junction of Cache Slough and Yolo Basin to Collinsville. This we firmly believe not only absolutely necessary for the preservation and safety of Sacramento City and the reclaimed delta lands along the lower Sacramento and San Joaquin Rivers and their tributaries, but for the existence and preservation of the navigable channels of these rivers as well.

5. Recognizing the necessity of expediting the work now under way in enlarging the outlet of the Sacramento River below Rio Vista, and believing this to be the first and most important unit of this great comprehensive plan for solving the problem of Flood Control and restoration and protection of the navigable channels, we strongly recommend that this Association urge upon the State Legislature at the present session an appropriation of $500,000.00 to become available upon an appropriation of a like amount from Congress as soon as possible.

6. We recommend that a printed copy of this report be furnished each member of this Association, also that a copy be transmitted to the State Reclamation Board, also to the California Debris Commission.

Respectfully submitted,

I. L. BORDEN.
JAMES F. ELLIOTT.
GEO. B. GREENE.
E. A. BRIDGFORD.
E. L. WILHOIT.

Run, place, erect or maintain any wire or cable used to carry or conduct electricity, on any pole, or any crossarm, bracket or other appliance attached to such pole, within a distance of thirteen inches from the center line of said pole; *provided*, that the foregoing provisions of this paragraph, (*a*), shall be held not to apply to telephone, telegraph or other 'signal' wires or cables which are attached to a pole to which is attached no wire or cable other than telephone, telegraph or other 'signal' wire or cable, except within the corporate limits of any city or town which shall have been incorporated as a municipality, nor shall the foregoing provisions be held to apply to such wires or cables in cases where the same are placed vertically on poles, nor to 'bridle' or 'jumper' wires on any pole which are attached to telephone, telegraph or other 'signal' wires on the same pole, nor to any 'aerial' cable, as between such cable and any pole on which it originated or terminates; *and further provided*, that telephone toll lines may be exempt from the provisions of this paragraph, (*a*), provided proper evidence introduced before the Railroad Commission of the State of California proves to the satisfaction of said Railroad Commission, that compliance with the provisions of this paragraph, (*a*), would seriously interfere with long distance telephone transmission; *and further provided*, that the provisions of this paragraph, (*a*), shall not be held to apply to wires run from "lead" wires to arc or incandescent lamps nor to transformers placed upon poles, nor to any wire or cable where the same is attached to the top of a pole, as between it and said pole, nor to any 'aerial' cable containing telephone, telegraph or other 'signal' wires where the same is attached to a pole on which no other wires or cables than wires continuing from said cable are maintained; *provided*, that electric light or power wires or cables are in no case maintained on the same side of the street or highway on which said 'aerial' cable is placed.

"(*b*). Run, place, erect or maintain in the vicinity of any pole (and unattached thereto) within the distance of thirteen inches from the center line of said pole, any wire or cable used to conduct or carry electricity, or place, erect or maintain any pole (to which is attached any wire or cable used to conduct or carry electricity) within the distance of thirteen inches (measured from the center of such pole) from any wire or cable used to conduct or carry electricity; *provided*, that as between any wire or cable and any pole, as in the paragraph, (*b*), named, only the wire, cable or pole last in point of time run, placed or erected, shall be held to be run, placed, erected or maintained in violation of the provisions of this paragraph; *and provided, further*, that the provisions of this paragraph, (*b*), shall not be held to apply to telephone, telegraph or other 'signal' wires or cables on poles to which are attached no other wires, as between such wires and poles to which are attached no other wires or cables than telephone, telegraph or other 'signal' wires; *provided*, such wires, cables and poles are not within the corporate limits of any town or city which shall have been incorporated as a municipality; *and further provided*, that telephone toll lines may be exempt from this paragraph, (*b*), provided proper evidence introduced before the Railroad Commission of the State of California, proves to the satisfaction of the said Railroad Commission, that compliance with the provisions of this paragraph, (*b*), would seriously interfere with long distance telephone transmission.

"(*c*) Run, place, erect or maintain, above ground, within the distance of four feet from any wire or cable conducting or carrying less than six hundred volts of electricity, any wire or cable which shall conduct or carry at any one time more than six hundred volts of electricity, or run, place, erect or maintain within the distance of four feet from any wire or cable which shall conduct or carry at any one time more than six hundred volts of electricity any wire or cable conducting or carrying less than six hundred volts of electricity; *provided*, that the foregoing provisions of this paragraph, (*c*), shall be held not to apply to any wires or cables attached to a transformer, arc or incandescent lamp within a distance of four feet (measured along the line of said wire or cable) from the point where such wire or cable is attached to such transformer, arc or incandescent lamp, nor to wires or cables within buildings or other structures, nor to wires or cables where the same are placed vertically on poles, nor to any "lead" wires or cables between the points where the same are made to leave any pole for the purpose of entering any building or other structure and the point at which they are made to enter such building or structure; *and provided, further*, that as between any two wires or cables, or any wire or any cable, run, placed, erected or maintained in violation of the provisions of this paragraph, (*c*), only the wire or cable last in point of time run, placed or erected shall be held to be run, placed, erected or maintained thus in violation of said provisions; *and further provided*, that where no more than one crossarm is maintained on a pole, all the wires or cables conducting or carrying at any one time more than six hundred volts of electricity shall be placed on the crossarm on one side of the pole, and all the wires or cables conducting or carrying less than six hundred volts of electricity shall be placed on the crossarm on the other side of the pole; *and further provided*, that the space between any wire or cable conducting or carrying at any one time more than six hundred volts of electricity and any wire or cable carrying less than said voltage shall be at least thirty-six inches clear measurement in a horizontal line. Where the foregoing provisions of this paragraph, (*c*), can not be complied with, the Railroad Commission of the State of California may grant permission for the following form of construction; where two or more systems for the distribution of electric light or power occupy the same poles with wires or cables, all wires or cables conducting or carrying at any one time more than six hundred volts of electricity may be placed on the crossarms on one side of the pole, and all wires or cables conducting or carrying less than said voltage, shall in such case, be placed on the crossarms on the other side of the pole; *and provided*, that the space between any wire or cable conducting or carrying at any one time more than six hundred volts of electricity and any wire or cable conducting or carrying less than said voltage shall be at least thirty-six inches in measurement in a horizontal line; *and further provided*, that in such construction all crossarms shall be at least thirty-six inches apart in a vertical line.

"(*d*). Run, place, erect or maintain any wire or cable which shall conduct or carry at any one time more than six hundred volts of electricity, without causing each crossarm, or such other appliance as may be used in lieu thereof, to which such wire or cable is attached to be kept at all times painted a bright yellow color, or, on such crossarm, or other appliance used in lieu thereof, shall be placed signs, providing, in white letters on a green background, not less than three (3) inches in height the words "high voltage" on the face and back of each crossarm. The provisions of this paragraph, (*d*), shall not be held to apply to crossarms to which are attached wires or cables carrying or conducting more than ten thousand volts of electricity, and which are situated outside the corporate limits of any town or city which shall have been incorporated as a municipality.

"(*e*). Run, place, erect or maintain any "guy" wire or "guy" cable attached to any pole or appliance to which is attached any wire or cable used to conduct or carry electricity, without causing said "guy" wire or "guy" cable to be effectively insulated at all times at a distance of not less than four (4) feet nor more than eight (8) feet (measured along the line of said wire or cable) from the upper end thereof, and at a point not less than eight (8) feet vertically above the ground from the lower end thereof; *and further provided*, that wherever two or more "guy" wires or "guy" cables are attached to the same pole and same anchorage pole there shall be at least one foot, vertical space, between the points of attachment; *and further provided*, that no insulation shall be required at the lower end of a "guy" wire or "guy" cable where same is attached to a grounded anchor; *and further provided*, that where "guy" wires or "guy" cables are attached to a pole or structure of steel or other conducting material supporting wires or cables carrying in excess of fifteen thousand volts where pole or structure is thoroughly grounded no insulation shall be required at any point in said "guy" wire or "guy" cable; none of the provisions of this paragraph, (*e*), shall be held to apply to "guy" wires or "guy" cables attached to poles carrying no wire or cable other than telephone, telegraph or other "signal" wire or cable, and which are situated outside the corporate limits of any town or city which shall have been incorporated as a municipality.

"(*f*). Run, place, erect or maintain vertically on any pole, any wire or cable used to conduct or carry electricity, without causing such wire or cable to be at all times wholly incased in a casing equal in durability and insulating efficiency to a wooded casing not less than one and one-half inches thick. The provisions of this paragraph, (*f*), shall not be held to apply to vertical telephone, telegraph or other "signal" wires or cables on poles where no other such wires or cables are maintained, and which are outside the corporate limits of any town or city which shall have been incorporated as a municipality; nor to wires or cables run vertically on iron poles or structures where both pole or structure and conduit are securely grounded.

"(*g*) Place erect or maintain on any pole, or any crossarm or other appliance on said pole, which carries or upon which is placed an electric arc lamp, any transformer for transforming electric currents; *provided, however*, that this section, (*g*), shall not apply if any arc lamp that shall be suspended so that it can be trimmed from the ground or from a stand located on the pole not less than seven feet below the transformer; *and further provided*, that in so suspending an arc lamp (where transformer is located on same pole) no wire or cable in connection therewith shall be run vertically on the pole unless said wire or cable be protected as provided for in paragraph, (*f*), of this section 1.

"(*h*) Run, place, erect or maintain any wire or cable carrying more than fifteen thousand volts of electricity across any wire or cable carrying less than said voltage or across any public highway, except on pole of such height and so placed at each crossing that under no circumstances can said wire or cable of said voltage higher than fifteen thousand volts in case of breakage thereof or otherwise, come in contact with any wire or cable of less than said voltage, or fall within a distance of ten (10) feet from the surface of any public highway; or in lieu thereof double strength construction may be installed, in which case the wires carrying a voltage higher than fifteen thousand volts shall, between the points of crossing, be of a cross-section area equal to at least twice that used in the line outside of such crossing, except where the conductor used is equal to number four (4) stranded Brown & Sharpe gauge or greater, in which case the wires or cables will be considered as complying with the law.

"(*i*) Run, place, erect or maintain any suspension wire to which is attached any "aerial" cable or "75 pair number nineteen Brown & Sharpe gauge" or over, or of "100 pair number twenty-two Brown & Sharpe guage" or over suspended from a crossarm, (or from any other structure or appliance from which said suspension wire is hung) by a single bolt and clamp without at the same time attaching said suspension wire to said crossarms, structure or appliance by an additional "safety" bolt and clamp (or other "safety" appliance for thus attaching said suspension wire) of tensile strength equal to the first herein said bolt and clamp.

"SEC. 2. Section 3 of said Act is hereby amended to read as follows:

"'Sec. 3. No commission, officer, agent or employee of the State of California, or of any city and county or city or county or other political subdivision thereof, and no other person, firm or corporation shall run, place, erect or maintain any "span" wire attached to any wire or cable used to conduct or carry electricity, without causing said "span" wire to be at all times effectively insulated between the outer point at which it is in any case fastened to the pole or other structure by which it is hung or supported, and at the point at which it is in any case thus attached; *provided*, that such insulation shall not in any case be placed less than two (2) feet or more than four (4) feet from said point at which said "span" wire is so attached, and that when in any case such "span" wire is attached along its length to any two (2) such wires or cables, conducting or carrying electricity and extending parallel to each other, not more than eighteen (18) feet apart, such insulation shall not be required therein at any point between such parallel wires or cables; none of the provisions of this section three (3) shall be held to apply where "feeder" wires are used in place of "span" wires.'

"'Sec. 7. Any commission, officer, agent or employee of the State of California or any city and county, or city or county, or other political subdivision thereof, or any other person, firm or corporation may upon proper application to the Railroad Commission of the State of California be granted by said Railroad Commission an extension of time beyond that provided for in section 6 of this Act, provided it is shown to the satisfaction of said commission that the provisions of this Act can not be complied with by said applicant within said time, or that the applicant for good and sufficient reasons has not been able to comply with the provisions of this Act, and that such applicant has heretofore used due diligence so to do within the time specified in said section 6.'

"SEC. 4. A new section to be known and designated as section 8, is hereby added to said Act, to read as follows:

"'Sec. 8. The Railroad Commission of the State of California is hereby vested with authority and power, at its descretion to grant such additional time and is hereby instructed to inspect all work which is included in the provisions of this Act, and to make such further additions or changes as said commission may deem necessary for the purpose of safety to employees and the general public, and the said Railroad Commission is hereby charged with the duty of seeing that all the provisions of this act are properly enforced.

LOS ANGELES, CALIFORNIA, April 8, 1915.

DEAR SIR: We, the undersigned, teachers in the Department of Psychology and Education, students of child life and advocates of child welfare, are profoundly interested in the passage of the North South Child Labor bill. We wish to see California in the front rank of states protecting children from exploitation. We are especially anxious to see the "street trades" regulated as this bill provides, because of the serious effect of such trades upon the child's morals.

May we respectfully and emphatically express the hope that you will use your influence most strongly to secure the adoption of this bill and its enactment into law.

Very truly yours,

CHARLES W. WADDLE, and 7 others.

By the Secretary:

SACRAMENTO, CALIFORNIA, March 30, 1915.

To the Senate and Assembly of the State of California:

GENTLEMEN: Pursuant to the provisions of chapter 681 of the Statutes of 1913, this commission was appointed by his Excellency, Hiram W. Johnson. The first meeting of the commission was held January 16, 1915. At that time the commission organized and took up for consideration a general survey of the work proposed under the provisions of chapter 681.

By the provisions of the Act creating it, the commission was directed to investigate and consider the various systems of old age insurance, old age pensions or annuities, also mothers' pensions or mothers' compensations now in use in different counties of this or other states, and as may be proposed or as are now in operation in other states of this country or in other countries. The commission was further directed to make a full and complete report of its findings with all data so obtained, properly tabulated, to the Legislature at its next regular session. The commission was also directed to report statistics showing the expense to the State of any system that it might recommend for adoption, together with any bills of its own relating to this subject that it might deem expedient.

A preliminary discussion of the work outlined in the statutes for the commission very quickly developed the fact that with the amount of the appropriation at the disposal of the commission it would be utterly impossible to make any intelligent report on the several subjects which the commission was directed to investigate.

It was apparent from the first that the preparation of any general statistical report alone would cost at least twice the amount of the total appropriation at the disposal of the commission.

The subject of old age insurance and old age pensions has been one with which foreign nations have dealt for forty years. The two nations which have accomplished concrete results along this line are notably England and Germany. An investigation and analysis of the data bearing on the experience of these two countries would be a necessary work in connection with the drafting of any old age insurance or pension in California. The time at the disposal of the commission was too limited for any such investigation.

Necessarily a system of mothers' pension or compensation would be a part of any social insurance scheme which the State would adopt, and this subject should be thoroughly investigated before any attempt should be made to draw new legislation.

An academic investigation of old age insurance and mothers' pensions would be of little value in the work of drafting laws of this character because of the totally different conditions under which these schemes have operated in other parts of the world. To make any such investigation full and comprehensive it would be essential to hold hearings throughout the State and determine at first hand just what the conditions might be in California relative to such a system, and how such a system would fit in with our social fabric. Of course the holding of these hearings was impossible with the appropriation at the disposal of the commission.

While the commission has been fearful of doing an injustice to the important subject matter it was directed to investigate by making an investigation which would necessarily be nothing more than perfunctory, the commission did find that it could be of service in connection with the consideration of the orphan and half-orphan aid Act now in operation in California.

At its two sessions the commission devoted a great deal of time to conference with the children's agents of the State Board of Control. These children's agents have administered, under direction of the State Board of Control, the orphan and half-orphan aid Act since August, 1913.

The examination of the records of the children's agents of the State Board of Control and the matters brought out at the conferences demonstrated beyond a doubt the wisdom of the creating of this supervisory control over the state aid fund. While the State prior to 1913 never exercised any real supervision over the expenditure of this fund, which was in excess of $400,000.00 per annum, since August, 1913, an excellent supervision has been established at a minimum cost, and data has been gathered which will be of inestimable value in connection with any investigation of social insurance in the future.

Unquestionably the results of the work of the children's agents will be brought to the attention of the Legislature in the report of the State Board of Control. It would therefore probably be inappropriate for this commission to further burden this report with details of the work done. This commission, however, deems it appropriate to recommend an earnest consideration of the work done since August, 1913, in connection with this state aid, and this commission heartily endorses the idea of continuing the present system of orphan and half-orphan aid under the direction of the State Board of Control until such time as it shall be determined whether the State shall establish a system of social insurance including old age pensions, mothers' pensions, etc.

This commission recommends to the favorable consideration of the Legislature five suggestions made by the children's agents of the Board of Control in connection with the amending of the orphan and half-orphan aid Act. These suggestions are as follows:

1. That the age limit under which children shall be allowed aid shall be raised from fourteen years to fifteen years, so as to bring this law into logical juxtaposition with the school laws and the child labor laws of the State.
2. That a residence of at least two years in California shall be required as a condition precedent to the granting of State aid.
3. That illegitimate children shall be classed as half-orphans instead of whole orphans, unless the mothers abandon all claims.
4. That section 209 of the Code of Civil Procedure be amended so as to require a stepfather to support any children his wife may have by a former marriage.
5. That section 2283 of the Political Code be amended as follows:

   "*Provided, however*, that the State shall not reimburse any county for aid unless such aid shall have been paid to the mothers or guardians of the children in legal money, unless permission shall first have been obtained from the State Board of Control to grant the allowance either in produce or other form."

   The purpose of this amendment is to strike out the vicious system which prevails in so many counties of giving State aid to these mothers in the form of grocery orders and expedients of like character. The grocery order system readily lends itself to the erection of the system of petty tyranny, in which the grocer or merchant on whom the order is issued in reality becomes the judge of how much a dependent mother shall have for the support of her child.

The adoption of these amendments to the present orphan and half-orphan aid Act this commission feels will prove a great benefit not only to the State, but to the persons entitled to State aid.

A consideration of the future work in connection with determining the question of whether the State shall institute a system of social insurance, leads this commission to respectfully recommend that the Legislature shall provide for a further investigation of the entire subject of social insurance, and that the Legislature shall provide an appropriation adequate to properly carry out the investigation.

In order to bring about such results this commission recommends that a new Act be passed providing for the investigation and consideration of the various systems of social insurance, mothers' and widows' pensions and compensation in use in this country or in foreign countries.

The commission also recommends that the new investigating body be empowered and directed to hold hearings in the principal cities of the State for the purpose of investigating social conditions, and that the investigating body shall have the power to subpœna witnesses and to enforce their attendance.

The commission respectfully suggests that an appropriation of $20,000.00, expended with proper economy, shall be sufficient to provide for a careful and comprehensive study of the subject.

The new commission should be directed to submit its final report to the next regular session of the Legislature.

Up to the present time this commission has expended $207.54, detailed statement of which is hereto attached and made a part of this report in accordance with the law, leaving an unexpended balance in this appropriation of $2792.46.

Pending action by the Legislature this commission feels that it should conserve the balance of the appropriation of $3,000.00 at its disposal, feeling that the expenditure of this sum of money would simply be an expenditure which would not properly meet the need for which it was made.

This report is respectfully submitted this 30th day of March, 1915.

By Senator Slater:

To Senator Slater and Members of the Legislature:

WHEREAS, The State of California, since 1862, has encouraged the viticultural industry by sending abroad commissioners to secure grape cuttings from all the principal wine producing countries of Europe; by establishing a separate department in the State University at Berkeley, to teach the grape growing and wine making; by adding an agricultural school at Davis, where viticultural commissioners are employed; and by appropriating nearly $300,000 to foster all this work; and

WHEREAS, The Department of Agriculture, U. S. A., has also aided in the development of the viticultural industry by conducting valuable experiments at a dozen stations in different parts of the State for the benefit of the vineyardists; and

WHEREAS, The Federal government has protected our dry wines by favorable tariff laws and encouraged the production of pure sweet wines under the act of 1890; and

WHEREAS, In view of all this encouragement, 15,000 settlers have invested money in the grape industry in the belief that they would be protected; and

WHEREAS, There are today in California 330,000 acres in vines, which, with the 700 wineries and numerous packing houses and shipping plants, represent an investment of $150,000,000, from which the State derives an annual income of $30,000,000; and

WHEREAS, Efforts are being made to destroy this valuable industry by preventing the manufacture of wine, thus wiping out the sole market for the grapes of thousands of desirable vineyardists; therefore, be it

Resolved by the Occidental Grape Growers' Association, That we heartily endorse the sentiments expressed in Assembly Constitutional Amendment No. 40, introduced by the Hon. Bismarck Bruck, which provides that "no law or constitutional amendment which shall damage, injure or destroy the value of or prevent the use of any vineyard, wine cellar, hop field, brewery, distillery or other property used in producing, growing or raising grapes or hops, or in manufacturing or producing or shipping wine, beer, malt or distilled liquors, existing at the time of the passage or adoption of such law or constitutional amendment, shall take effect until just compensation shall have been first made to or paid into court for the owner"; and be it further

Resolved, That this resolution be spread on the minutes of this meeting and a copy be forwarded to Governor Hiram Johnson and to our representatives in the Senate and Assembly, with the request that they do all in their power to bring about the adoption of Assembly Constitutional Amendment No. 40.

Any person interested may file with the clerk of said board at least one day before the time fixed for the hearing, a written objection to said report, or to any part thereof, to the assessment as a whole or to the assessments on the several parcels of land, as set forth in said report. At the time fixed for such hearing or at any time to which the hearing may be adjourned, the board of supervisors shall hear all objections so filed, and pass upon the same, and shall proceed to pass upon said report and the assessments therein contained, and may confirm, correct or modify the same, or may order the county surveyor to make a new assessment, report and plat which shall be filed, heard and acted upon in the same manner, and on like notice as in the case of an original report. The action of the board upon the report and objections thereto shall be final and conclusive as to all matters which they might have remedied or avoided, and no assessment shall be set aside except upon such hearing for any error, defect, or informality therein, or in the proceedings prior thereto, where the district has been legally formed and notice of the hearing of the report has been given as herein prescribed.

After said report has been adopted as provided in the preceding section, the board of supervisors shall by order entered upon its minutes provide for the amount of money to be raised by assessment each year. When the board has determined the sum to be assessed for each year, and the number of years that such assessment shall continue, (which said number of years shall correspond to the number of years within which the aggregate number of bonds to be issued under this Act shall be paid and discharged), said board shall cause the clerk of said board to forward to the tax collector of the county in which such district is situated a certified copy of the report, assessment, and plat, as adopted and confirmed by said board of supervisors, together with a certified copy of the order of said board fixing the sum to be raised by such assessment, each year, and the number of years such assessment shall continue, and from and after the filing of such certified copy the charges assessed upon each piece of land or improvements thereon for the first year shall become due and payable immediately, and shall constitute a lien thereon, and thereafter the assessments for the succeeding year shall become due and payable on the first day of October of each year, and shall upon becoming due and payable constitute a lien upon the land or improvements upon which it is assessed.

All moneys paid upon such assessment, either by property owners or by the county or municipality affected, shall be placed in the county treasury of the county in which such drainage district was organized to the credit of a special fund to be known as Drainage District Improvement Fund No. ________, and shall be used only to retire the bonds issued to pay the expense and cost of constructing the improvement described in survey, maps, plans and specifications adopted by the board of supervisors, and to pay other incidental expenses hereinabove enumerated. *provided, however*, that any surplus remaining after the construction thereof shall be paid into the current expense or maintenance fund. Payment from such funds shall be made upon demands prepared, presented, allowed and audited in the same manner as demands upon the funds of the county. Upon the filing of such certified copy of such report, assessment plat and order with the tax collector of the county, as hereinbefore prescribed, the county tax collector shall give notice by a ten days' publication in a newspaper printed in the county that the assessment list of Drainage Improvement District No. ____ has been filed in his office with the date of such filing. That the amounts entered thereon are due and payable, and that if not paid on or before the first Monday in October next ensuing the same will become delinquent and will be collected as are delinquent taxes. He shall note on said assessment list all assessments paid, giving receipts as in the payment of taxes, and shall pay all money collected into the county treasury at the same time and in the same manner as money collected for taxes paid into said treasury.

All subsequent collection of assessments shall be made in the same manner above set forth and the tax collector shall annually after the first year, publish a like notice containing all the statements required to be made, as hereinbefore in this section set forth, and the same proceedings shall be had as upon the collection of the first assessment.

When said assessments have become delinquent the tax collector of such county shall proceed to collect such delinquent assessments with five per cent added thereon, and pay the same, including the five per cent so collected, over to the county treasurer in the same manner as state and county taxes are collected and paid over, and for the purpose of collecting such assessments and delinquent assessments all of the provisions of chapter 7, title 9, part III of the Political Code not in conflict with any of the provisions of this Act are hereby made applicable to the collection of assessments and delinquent assessments in such drainage districts.

The board of supervisors shall, at the time of making the levy of taxes for county purposes for each year, levy a tax upon the real estate in each drainage district organized under this Act in their county sufficient in amount to raise the amount of money which will be needed for the current year for maintaining and repairing the works and improvements for said district. Said tax, when levied, shall be entered upon the assessment roll and collected in the same manner as state and county taxes. When the same is collected it shall be placed in the treasury of the county to the credit of the current expense fund of said district and shall be used only for the purpose for which it was raised. If any bank shall have become a member of a federal reserve bank, it may maintain as reserves on deposit with such federal reserve bank such portion of its total reserves as shall be required of members of such federal reserve bank.

If any bank shall not maintain the total reserves required the Superintendent of Banks may impose a penalty upon it, based upon the length of time such encroachment upon its total reserves amounting to one per centum or more of its aggregate deposits shall continue, at the following rates:

The Superintendent of Banks shall, in his discretion, upon the nomination of any bank, designate a depositary or depositaries for the reserves on deposit of such bank provided for by this Act. Except as otherwise provided in this section, such depositary shall be a bank or national banking association located in this State. Every reserve depositary, which has its principal place of business in a judicial township or in a city located in this State in which the population is less than fifty thousand, shall have at all times as its total reserves an amount equal to the total reserves required by the provisions of this section for every bank which has its principal place of business in a city having a population of fifty thousand or over and less than one hundred thousand. But no bank or national banking association shall hereafter be designated as a depositary of any such reserves unless it shall have a combined capital and surplus of not less than the following amounts:

If the total reserves of any bank shall be less than the amount required by this section, such bank shall not increase its liabilities by making any new loans or discounts, otherwise than by discounting bills of exchange on sight, or by paying any dividends from profits until the full amount of its total reserves has been restored. The Superintendent of Banks may notify any bank whose total reserves shall be below the amount herein required, to restore such total reserves; and, if it shall fail for thirty days thereafter to restore such total reserves, such bank shall be deemed insolvent and may be proceeded against under the provisions of this Act; *provided*, that all deposits of money herein permitted or required shall comply with the provisions of section 43 of this Act.

No department shall receive deposits from any other department of the same corporation; except that a trust department, in proper cases, may make deposits of trust or any other funds under its control with the savings department of the same corporation and may, upon order, previously obtained, of any court having jurisdiction of any trust or fund, make deposits of moneys belonging thereto with the commercial department of the same corporation; *provided, however*, that any bank having departments shall have the right to sell and transfer any bonds, securities or loans from one department to another upon receipt of the actual value thereof, if such bonds, securities or loans are, under the provisions of this Act, a legal investment for the department purchasing the same.

SEC. 8. Section 28 of said Act is hereby amended to read as follows:

Sec. 28. Every bank in this State must, on all its window signs and in advertising, and on letterheads and other stationery on which its business is transacted, use the word "savings" if it conducts a savings business, or the word "trust" if it conducts a trust business, and the word "commercial" if it conducts a commercial business. Every bank, which maintains a branch office, must on all window signs and in advertising, and on letterheads and other stationery on which the business of said branch office is transacted, use in letters and type, equal in prominence to that used in its corporate name, the word "branch."

SEC. 9. Section 32 of said Act is hereby amended to read as follows:

Sec. 32. Any bank receiving trust funds in accordance with the provisions of this Act relating to trust companies must not mingle such trust funds with the other assets of the corporation, except as otherwise provided in section 25 of this Act, and such funds shall not be carried or counted as any part of the total reserves provided for in this Act. The officers of any bank who knowingly violate or consent to the violation of this provision shall be guilty of a felony.

SEC. 10. Section 36 of said Act is hereby amended to read as follows:

Sec. 36. No commercial bank receiving deposits of money shall purchase or agree to purchase any bond issue in excess of five per centum of its assets, except bonds of the United States, of the State of California, of the counties, cities and counties, cities or school districts of this State, or bonds of any irrigation district such as are legal for investment by savings banks.

SEC. 11. Section 37 of said Act is hereby amended to read as follows:

Sec. 37. No bank shall purchase or invest its capital or surplus or money of its depositors, or any part of either, in the capital stock of any corporation unless the purchase or acquisition of such capital stock shall be necessary to prevent loss to the bank on an obligation owned or on a debt previously contracted in good faith. Any capital stock so purchased or acquired shall be sold by such bank within six months thereafter if it can be sold for the amount of the claim of such bank against it; and all capital stock thus purchased or acquired must be sold for the best price obtainable by said bank within one year after such purchase or acquisition. Every person or corporation violating any provision of this section shall forfeit to the people of the State twice the nominal amount of such stock.

SEC. 13. Section 47 of said Act is hereby amended to read as follows:

Sec. 47. No commercial bank shall, except for the purpose of facilitating the sale of property owned by the bank, make any loan on the security of real estate unless it is a first lien and is either

(1) Made for a period of time not exceeding six months and upon security worth at least fifteen per centum more than the amount loaned; or

(2) Made for a period of time exceeding six months and not exceeding ten years and does not exceed sixty per centum of the market value of the real estate taken as security.

No commercial bank shall loan in the aggregate more than thirty-five per centum of its assets on real estate loans of the character specified in subdivision 2 of this section. These provisions, however, shall not prevent any bank from taking another and immediately subsequent mortgage or deed of trust thereon when it already holds a first mortgage or deed of trust on such real estate, nor from accepting a second lien on real estate to secure the repayment of a debt previously contracted in good faith; nor shall it prevent subsequent liens of any kind from being taken to secure the payment of a debt previously contracted in good faith when, in the judgment of the directors of such bank, such subsequent liens are necessary further to secure the payment of any debts and save such bank from loss.

SEC. 14. Section 48 of said Act is hereby amended to read as follows:

Sec. 48. Any national bank in this State, other than a federal reserve bank, receiving the deposits of any bank organized and conducting business under this Act, must, at the request of the Superintendent of Banks, submit to an examination by him, or his duly appointed examiners, should the Superintendent of Banks in his discretion deem it necessary or desirable that such examination be made; and the expense of such examination shall be paid by such depositary bank; and if any such bank shall refuse to permit such examination to be made by, or under the direction of, the Superintendent of Banks, then the Superintendent of Banks shall notify in writing every bank depositing its funds with such bank, to withdraw its deposits therefrom, and all such banks shall comply with such order.

SEC. 15. Section 49 of said Act is hereby amended to read as follows:

Any commercial bank, individual, trust company, association, firm, stock company, co-partnership or corporation, violating any provision of this section shall forfeit to this State one hundred dollars a day for every day during which such violation continues.

SEC. 16. Section 56 of said Act is hereby amended to read as follows:

Sec. 56. Any bank organized and existing under the laws of this State is hereby authorized and empowered to join or associate itself with any "national reserve association of the United States" or branch thereof, or any plan now or hereafter created or established by Act of Congress whether such banking or currency association or plan be created by Congress under the above or any other name. Nothing in this Act shall prohibit any such bank from joining or associating itself with any such association or plan or branch thereof nor from investing any part of its capital or surplus in the stock of such association, plan or branch thereof in accordance with the terms and provisions of such Act of Congress; *provided, however*, that such investment shall in no case exceed the minimum amount required to join or associate itself with such association, plan or branch thereof. Any bank joining or associating itself with such association, plan or branch thereof, shall have and exercise all powers, not in conflict with the laws of this State, which are conferred upon any member bank in any such "national reserve association of the United States" or branch thereof. SEC. 18. Section 61 of said Act is hereby amended to read as follows:

3. Such as may have been purchased at any sales under pledge, mortgage or deed of trust made for its benefit for money so loaned and such as may be conveyed to it by borrowers in satisfaction and discharge of loans made thereon.

(*e*) Bonds of any county, city and county, city or town, in any state of the United States other than the State of California issued under authority of any law of such state, which county, city and county, city or town, had, as shown by the federal or state census next preceding such investment, a population of more than twenty thousand inhabitants; *provided, however*, that the entire bonded indebtedness of such county, city and county, city or town, including such issue of bonds does not exceed fifteen per centum of the value of the taxable property therein as shown by its last equalized assessment roll; *and provided, further*, that such county, city and county, city or town, or the state in which it is located has not defaulted in payment of either principal or interest upon any legally authorized bond issue within five years next preceding such investment.

(*f*) (1) Bonds of any railroad corporation incorporated under the laws of the State of California and operating exclusively therein, provided said corporation has had net earnings for the period herein fixed amounting to at least one and one fourth times the interest on all its outstanding mortgage indebtedness; or

(2) Bonds of any railroad corporation incorporated under the laws of any other state in the United States, operating at least five hundred miles of standard gauge track exclusive of sidings, provided said corporation has had net earnings for the period herein fixed amounting to at least one and one half times the interest on all its outstanding mortgage indebtedness; or

(3) Bonds of any railroad corporation, the payment of which has been guaranteed, both as to principal and interest, by a railroad corporation meeting the requirements of either subdivision (1) or (2) of paragraph (*f*) of this section, provided that such guaranteeing corporation has had for the period herein fixed net earnings amounting to at least one and one half times the interest on all its outstanding mortgage indebtedness and in addition thereto, sufficient, taken with the earnings of all corporations whose bonds it has guaranteed, to qualify as investments for savings banks, as in this section provided, all such guaranteed bonds; *provided*, that the excess of income of any corporation whose bonds have been so guaranteed, over the amount required by this section for such corporation, shall not apply to or be included in determining the income so required. In determining the income of any corporation specified in paragraph (*f*) of subdivision 3 of this section, there shall be included the income of any corporation or corporations out of which it shall have been formed through consolidation or merger, and of any corporation or corporations, the entire business and income producing property of which the corporation issuing such bonds has wholly acquired.

All bonds authorized for investment by paragraph (*f*) of subdivision 3 of this section must be secured by a mortgage or deed of trust which is at the time of making such investment; either

I. A closed first mortgage or deed of trust; or

In the case of bonds secured by an underlying or divisional closed mortgage or deed of trust, the net income required by this section shall be based exclusively upon the income, maintenance charges, operating expenses, taxes, and mortgage indebtedness of or against the property covered by such underlying or divisional closed mortgage or deed of trust, or, if such income, maintenance charges or operating expenses can not be definitely ascertained, on the proper proportionate share of such property in the general income, maintenance charges, operating expenses, and taxes of the corporation then owning such property and on the mortgage indebtedness of or against the property covered by such underlying or divisional closed mortgage or deed of trust; *provided, however,* that if the payment of the bonds secured by such underlying or divisional closed mortgage or deed of trust shall be guaranteed or assumed by the corporation then owning the property securing the same, such bonds shall be legal investments for savings banks, if the net income of such corporation from all sources shall equal the amount herein required, notwithstanding any insufficiency of the income derived from the property covered by such underlying or divisional closed mortgage or deed of trust to meet the requirements of this section.

No savings bank shall purchase the bonds of any railroad corporation deriving less than twenty per centum of its gross receipts from passenger revenues.

The term "railroad corporation" when used in paragraph (f) of subdivision 3 of this section shall have the meaning defined in the "Public Utilities Act" approved December 23, 1911.

(3) The payment of which is guaranteed, both as to principal and interest, by a public utility corporation meeting the requirements of either subdivision (1) or (2) of paragraph (*g*) of this section, provided that such guaranteeing corporation has had for the period required in the respective subdivisions of this paragraph relating thereto, net earnings amounting to at least one and one-half times the interest on all of said guaranteeing corporation's outstanding mortgage indebtedness, and, in addition thereto, sufficient, taken with the earnings of all corporations whose bonds it has guaranteed, to qualify as investments for savings banks, as in this section provided, all such guaranteed bonds; *provided,* that the excess of income of any corporation whose bonds have been so guaranteed, over the amount required by this section for such corporation, shall not apply to or be included in determining the income so required.

In determining the income of any corporation specified in paragraph (*g*) of subdivision 3 of this section, there shall be included the income of any corporation or corporations out of which it shall have been formed through consolidation or merger, and of any corporation the entire business and income producing property of which the corporation issuing such bonds has wholly acquired.

IV. An underlying or divisional closed mortgage or deed of trust of property which forms a part of the operating system of the corporation then owning said property. In the case of bonds secured by an underlying or divisional closed mortgage or deed of trust, the net income required by this section shall be based exclusively upon the income, maintenance charges, operating expenses, taxes and mortgage indebtedness of or against the property covered by such underlying or divisional closed mortgage or deed of trust or, if such income, maintenance charges or operating expenses can not be definitely ascertained, on the proper proportionate share of such property in the general income, maintenance charges, operating expenses and taxes of the corporation then owning such property and on the mortgage indebtedness of or against the property covered by such underlying or divisional closed mortgage or deed of trust; *provided, however*, that if the payment of the bonds secured by such underlying or divisional closed mortgage or deed of trust shall be guaranteed or assumed by the corporation then owning the property securing the same, such bonds shall be legal investments for savings banks, if the net income of such corporation from all sources shall equal the amount herein required, notwithstanding any insufficiency of the income derived from the property covered by such underlying or divisional closed mortgage or deed of trust to meet the requirements of this section.

The terms, "street railroad corporation," "pipe line corporation," "gas corporation," "electrical corporation," "telephone corporation," "telegraph corporation," "water corporation," and "public utility," when used in paragraph (*g*) of subdivision 3 of this section, shall each have the meaning defined in the "Public Utilities Act" approved December 23, 1911.

(*h*) Notes or bonds secured by first mortgage or deed of trust or other first lien upon real estate, improved or unimproved; *provided*, that the entire note or bond issue shall not exceed sixty per centum of the market value of such real estate, or such real estate with improvements, taken as security; *and provided, further*, in case the said note or bond issue is created for a building loan on real estate, that at no time shall the entire outstanding note or bond issue exceed sixty per centum of the market value of the real estate and the actual cost of the improvements thereon taken as security.

In determining the market value of any real estate under the provisions of paragraph (*h*), subdivision 3 of this section where such real estate, improved or unimproved, consists of oil or other mineral or timber land, the value represented by such oil or other mineral or timber shall not be included in fixing such market value.

(*i*) Collateral trust bonds or notes when secured by either:

(1) Deposit of bonds authorized for investment by this section of a market value at least fifteen per centum in excess of the par value of the collateral trust bonds or notes issued; or

(2) Deposit of bonds authorized for investment by this section and other securities of a combined market value at least twenty per centum in excess of the par value of the collateral trust bonds or notes issued; *provided*, that the par value of said collateral trust bonds or notes shall in no case exceed the market value of that portion of the security represented by bonds authorized for investment by this section.

(3) Deposit of any notes or bonds authorized for investment by this section and other securities of a combined market value of at least thirty per centum in excess of the par value of the collateral trust bonds or notes issued; *provided*, that the par value of such collateral trust bonds or notes issued shall in no case exceed the market value of that portion of the security represented by notes or bonds authorized for investment by this section; *provided, further*, that the collateral pledged consist of bonds authorized for investment by this section of the market value of at least seventy-five per centum of the par value of such collateral trust bonds or notes issued.

(*j*) Bonds legal for investment by savings banks in the states of New York or Massachusetts: *provided, however*, that as to bonds of the character specified in paragraph (*e*) or (*f*) of subdivision 3 of this section such bonds shall also conform to the requirements of either of such paragraphs.

(*k*) Notes or bonds secured by mortgage or deed of trust, payment of which is guaranteed by a policy of mortgage insurance, and mortgage participation certificates, issued by a mortgage insurance company in accordance with the provisions of chapter VIII of title II of part IV of division first of the Civil Code.

"Net earnings" as used in this section shall be deemed to mean the amount remaining after deducting from the gross earnings all taxes, maintenance charges and operating expenses except depreciation charges, sinking fund charges and interest on indebtedness.

Unless herein otherwise expressly provided the period for which any corporation must have "net earnings" sufficient to qualify its bonds as an investment for savings banks under this section shall be either the fiscal year of such corporation next preceding the investment therein by any savings bank or twelve consecutive months in the fourteen months next preceding such investment.

No notes, bonds, or other securities shall be deemed to come within or conform to the requirements of either of paragraphs (*f*), (*g*) or (*i*) of subdivision 3 of this section, unless such notes, bonds or other securities shall, in the manner provided in this Act, have been certified by the Superintendent of Banks to come within and fully conform to the requirements of one or the other of said paragraphs; *provided, however*, that notes, bonds or other securities, the payment of which is secured by any mortgage or deed of trust executed on or before September 1, 1913, and now owned by any savings bank in this State, if otherwise in full conformity with the requirements of this section, need not be so certified by the Superintendent of Banks, in order to be legal as investments for savings banks.

The legality of investments heretofore lawfully made pursuant to the provisions of this section, or of any law of this State as it existed on and subsequent to July 1, 1909, shall not be affected by any amendments to this section or this Act; nor shall any such amendments require the changing of investments once lawfully made under this Act.

Any bonds authorized by this section as a legal investment for savings banks may be carried on the books of said bank at their investment value, based on their market value at the time they were originally bought, unless the Superintendent of Banks shall require any or all of the bonds which may thereafter have a market value less than the original investment value to be written down to such new market value which shall be done gradually if practicable and in such manner as he may determine; or he may, by a plan of amortization to be determined by him, require such gradual extinction of premium as will bring such bonds to par at maturity.

No savings bank shall hereafter purchase or loan money upon any bond, note or other evidence of indebtedness, issued by any "public utility," subject to the jurisdiction, regulation or control of the Railroad Commission of this State under the provisions of the "Public Utilities Act," approved December 23, 1911, and Acts amendatory thereof or supplemental thereto, unless each such bond, note or other evidence of indebtedness was either:

(*a*) Issued prior to the taking effect of the "Public Utilities Act"; or

(*b*) Issued under authority of the Railroad Commission, in accordance with the provisions of said Act; or

(*c*) A note issued for a period not exceeding twelve months, in accordance with the provisions of subdivision (*b*) of section 52 of said Act.

No provision of this Act, and no act, or deed, done or performed under or in connection therewith, and no finding made or certificate issued under any provision thereof, shall be held or construed to obligate the State of California to pay, or be liable for the payment of, or to guarantee in any manner whatsoever, the regularity or the validity of the issuance of any stock or bond certificate, or bond, note, or other evidence of indebtedness certified under any provision of this Act, by the Superintendent of Banks, as being in conformity with the requirements of any paragraph of subdivision 3 of this section.

It shall not be lawful for any individual, firm, association, bank, trust company, stock company, co-partnership or corporation to advertise by newspaper or circular or in any other manner that any bonds are legal investments for savings banks in this State or to use any advertisement which might lead the public to believe that any bonds conform to the requirements of law relating to investments by savings banks unless such bonds are such as are specified in paragraphs (*a*) (*b*), (*c*), (*d*), (*e*), (*j*) or (*k*) of subdivision 3 of this section or shall, in the manner provided in this Act, have been certified by the Superintendent of Banks to come within and fully conform to the requirements of one or the other of paragraphs (*f*), (*g*), (*h*) or (*i*) of subdivision 3 of this section or unless such advertisement shall have been approved in writing by the Superintendent of Banks prior to publishing, circulating or otherwise issuing the same. Any individual, firm, association, bank, trust company, stock company, co-partnership or corporation who shall advertise any bonds in violation of the provisions of this paragraph shall be guilty of a misdemeanor and shall be punishable by a fine not exceeding one thousand dollars or by imprisonment in a county jail not exceeding one year or by both such fine and imprisonment.

SEC. 19. Section 61*a* of said Act is hereby amended to read as follows:

Sec. 61*a*. The Superintendent of Banks shall have power, when any issue of bonds or securities is presented to him for that purpose, to investigate and ascertain whether such bonds or securities come within and fully conform to all the requirements of paragraphs (*f*), (*g*), (*h*), or (*i*) of subdivision 3 of section 61 of this Act, or of either of said paragraphs. He may also investigate and ascertain for what period of time, and upon what conditions, any franchise granted to or held by any corporation issuing any such bonds or securities will remain in force, and any other facts or conditions bearing upon the value or sufficiency of such bonds. The actual expense of investigating any issue of bonds or securities so presented shall be paid by the person or corporation presenting the same for investigation, and the Superintendent of Banks, before making such investigation, may require a cash deposit of such amount as he may deem necessary to cover such expense. The Superintendent of Banks may accept and act upon the opinions and appraisements of any attorneys or appraisers which may be presented by such person or corporation so applying, and the reports of any of the executive officers of the corporation issuing such bonds or securities, on any question of fact concerning or affecting such bonds or securities, the security thereof, the franchise conditions herein mentioned, or the financial condition of the corporation issuing the same. In lieu of or in addition to such opinions, appraisements and reports, the Superintendent of Banks may, if he deems proper, have any or all such matters passed upon and certified to him by attorneys, appraisers or accountants of his own selection at the expense of the applicant. If the Superintendent of Banks shall find from such investigation that the bonds or securities so presented come within and fully conform to all the requirements of any of said paragraphs of subdivision 3 of section 61 of this Act, and is satisfied from such investigation as to such franchise conditions, he shall so certify unless for any reason he shall be of the opinion that such bonds are not a safe or proper investment for savings banks, and in such event or if such bonds shall fail to meet the requirements of this Act such certificate must be refused. Any bonds certified by the Superintendent of Banks as in this section provided shall thereafter be deemed to be legal as investments for savings banks until three months after the end of the then current fiscal year of such corporation unless for any reason the Superintendent of Banks shall have revoked such certificate and during such time but not thereafter bonds so certified may be purchased by savings banks without further certification. The Superintendent of Banks shall keep an official list of all bonds and securities certified by him.

SEC. 20. Section 65 of said Act is hereby amended to read as follows:

Any officer or director of any savings bank, who knowingly procures a loan from such savings bank, contrary to the provisions of this section, shall be guilty of a felony. In case of the neglect or failure of the secretary or cashier of any such bank, to report to the Superintendent of Banks, as herein provided, any of the facts so required to be reported, the bank shall be liable therefor and shall forfeit to the people of the State of California twenty-five dollars per day for each day, or part thereof, during which such neglect or failure continues.

The Treasurer shall give his receipt for any money or securities so deposited and each and all of such deposits of money or securities, shall be held by said State Treasurer for the sole benefit of the beneficiaries of the class of business for the security and protection of which same were deposited. The State shall be responsible for the custody and safe return of any money or securities so deposited with said State Treasurer. The term "trust funds" when used in this section shall be deemed to mean and shall mean personal property and cash, whether received with the original trust property or as rent, income or proceeds thereof, or otherwise, in connection with the trust, and shall not be deemed to include and shall not include real property. Any trust company failing to comply with the provisions of this section shall forfeit to the State of California one hundred dollars a day for each day during which such failure or default shall continue. Upon making a request in writing to the Superintendent of Banks, any such trust company shall be entitled to withdraw from the State Treasurer, from time to time, a sufficient amount of such securities so that at all times the amount of such securities so deposited shall conform to the requirements of this Act, and so that at no time shall such trust company be required to have on deposit with the State Treasurer an amount of securities in excess of the requirements of this Act. Upon receiving such request in writing, and satisfactory proof of the facts warranting such withdrawal, it shall be the duty of the Superintendent of Banks to forthwith deliver to the State Treasurer a written order directing the withdrawal of said securities so as to conform with the provisions of this section, and it shall be the duty of the State Treasurer to comply with such written order. The validity or legality of any Act or proceeding done or taken by any such trust company, relating to or in connection with the administration of any such trusts, shall not be affected or impaired by the neglect or failure of such trust company, or of any officer or employee thereof, to comply with any of the provisions of this Act, but all such Acts and proceedings done or taken prior to the revocation of its certificate of authority to do such business by the Superintendent of Banks, under the provisions of this Act, or the revocation by any court or judge thereof of the appointment, order or decree theretofore entered in such trust matter shall be as valid and effective for all purposes as if any such neglect or failure had not occurred.

SEC. 28. Section 99 of said Act is hereby amended to read as follows:

Sec. 99. When any part of the securities so deposited with the State Treasurer consists of notes, bonds or participation certificates secured by mortgage or deed of trust, it shall be accompanied by a policy of mortgage insurance or a complete abstract of title or an unlimited certificate of title or a policy of title insurance prepared or issued by a person, company or corporation designated or approved by the Superintendent of Banks and authorized by law or otherwise found by the Superintendent of Banks to be competent to issue such evidence of title, which shall be examined and approved by or under the direction of said Superintendent of Banks. The fees for an examination of such policy or evidence of title by counsel to be paid by the trust company making the deposit shall not exceed twenty dollars for each policy or title examined, and the fee for each appraiser, not exceeding two, shall not exceed five dollars for each mortgage or deed of trust.

SEC. 29. Section 101 of said Act is hereby amended to read as follows:

Sec. 101. For the purposes of this Act, all trusts permitted to be accepted or executed by any such trust company, under any provision of this Act are hereby classified and defined as either:

(*a*) Court trusts; or

(*b*) Private trusts.

A court trust is one in which any such trust company acts under appointment, order or decree of any court, as executor, administrator, guardian, assignee, receiver, depositary or trustee, or in which it receives on deposit from a public administrator, under any provision of this Act, or from any executor, administrator, guardian, assignee, receiver, depositary or trustee, under any order or decree of any court, money or property.

Any other trust is a private trust; *provided*, that the creator of any private trust of which a trust company shall be made, or at any time come to be, the trustee, may, at the time of the creation of such trust, or the creator of any such private trust, or his successors in interest, and the beneficiaries thereof may, at any time, by their joint consent, direct that such trust shall be subject to and entitled to the benefit of all of the provisions of this Act relating to court trusts and thereafter such trust shall for all the purposes of this Act be deemed to be a court trust and wherever in this Act the words "court trust" are used they shall be deemed to include private trusts which are subject to supervision except in so far as any of the provisions of this Act relating to court trusts may, by their nature, be inapplicable to such private trust. Such direction shall be in writing addressed to the trustee and a copy thereof, certified by the trustee, delivered to the Superintendent of Banks.

In case such direction shall be made after the acceptance of the trust, the trustee shall have the right to resign as such and a new trustee shall be appointed as provided in the trust instrument or by law. The inspection and supervision of the Superintendent of Banks shall extend only to court trusts as herein defined and to private trusts subjected to the provisions of this Act relating to court trusts as above provided.

Private trusts, except as in this section provided, shall not be subject to the inspection or supervision of the Superintendent of Banks, his attorneys, examiners or other assistants.

In making the reports to the Superintendent of Banks required by this Act, every trust company shall, in addition to the other facts to be reported by it, furnish only a list and brief description of the court trusts and private trusts, which are subject to supervision, held by it, the source of appointment thereto, the authority by which the appointment or deposit was made, and the amount of real or personal property held by such trust company by virtue thereof.

Nothing in this Act contained shall make it unlawful for any person or corporation not subject to the supervision of the Superintendent of Banks to engage in the business of receiving and holding in escrow money or its equivalent pending investment in real estate or securities for or on account of his or its principal, or of acting as trustee under deeds of trust given solely for the purpose of securing obligations for the repayment of money, other than corporation bonds.

SEC. 30. Section 127 of said Act is hereby amended to read as follows:

Sec. 127. When any number of persons desire to organize a corporation to conduct any one or more or all of the businesses mentioned in divisions (*a*), (*b*) and (*c*) of section 2 of this Act or to circulate stock subscription lists for any such proposed corporation the previous written consent of the Superintendent of Banks to such proposed organization must be obtained. No bank shall transact any business in this State without the written approval of the Superintendent of Banks, and without his written certificate stating that it has complied with the provisions of his Act, and all the requirements of law, and that it is authorized to transact, within this State, the business specified therein; which certificate may be withheld by the Superintendent of Banks whenever he has reason to believe that the bank is being formed for any other than the legitimate objects contemplated by this Act, or whenever he has reason to believe that the public convenience and advantage will not be promoted by the opening of such bank, or whenever he has reason to believe that the corporate name assumed by such bank resembles, so closely as to be likely to cause confusion, the name of any other bank previously formed under the laws of this State. Before issuing such certificate the Superintendent of Banks shall examine, or cause an examination to be made, in order to ascertain whether the requisite capital of such bank has been paid up in cash or the requisite reserve or surplus fund has been accumulated. The Superintendent of Banks shall not authorize such bank to commence business until it appears from such examination, or other evidence satisfactory to him, that the requisite capital has been, in good faith, subscribed and paid in, in cash, or that the requisite surplus or reserve fund has been accumulated or paid in, in cash, and until said bank shall have paid a fee of fifty dollars for each department to be operated by said bank.

SEC. 31. Section 144 of said Act is hereby amended to read as follows:

Sec. 144. Whenever by the terms of this Act a penalty or forfeiture is imposed, the same shall be recovered in an action brought at the request of the Superintendent of Banks by the Attorney General, in the name of the people of the State, and the sum recovered shall be paid into the State Banking Fund and used in payment of claims against the said fund. Any fine or pecuniary penalty, which may be incurred by any bank on account of the violation of any provision of this Act, may be compromised and a less amount than that prescribed by this Act accepted by the Superintendent of Banks at any time prior to the institution of action to recover the same.

SEC. 32. Section 145 of said Act is hereby amended to read as follows:

Sec. 145. The powers, privileges, duties and restrictions conferred and imposed upon any corporation or individual existing and doing business under the laws of this State are hereby abridged, enlarged or modified as each particular case may require to conform to the provisions of this Act, notwithstanding anything to the contrary in their respective articles of incorporation or charters. All the provisions of this Act shall apply with equal force and effect to all corporations which are now doing or which may hereafter do a banking business in this State, except where express exception or exemption may be made herein, and to such other persons, associations, co-partnerships or corporations who shall, by violating any of its provisions, become subject to the penalties provided herein. The legality of investments heretofore made, or title to property heretofore acquired or conveyed through transactions heretofore had by any bank pursuant to any provision of law in force when such investments were made or transactions had shall not be affected by the provisions of this Act, except that any such investments made prior to July 1, 1909, when not complying with the provisions hereof, shall be changed to conform hereto; but such change shall be made gradually and in such manner as to prevent loss or embarrassment in the business of such bank, or unnecessary loss or injury to the borrowers on such security; *provided, further*, that in any event, all investments and securities and excess in investments made prior to July 1, 1909, which are not in conformity with the provisions and spirit of this Act and which have been acquired and are now held by any bank, must be written off as assets of such bank prior to July 1, 1918; and no bank holding any such investments or securities acquired prior to July 1, 1909, shall, after July 1, 1918, be permitted to pay any dividends to its stockholders until it shall have written off all such non-conforming investments or securities; *and, provided, further*, that the legality of any investments heretofore lawfully made, pursuant to the provisions of this Act as it existed on and subsequent to July 1, 1909, shall not be affected by the provisions of this section.

Such tax shall be levied and collected on said real property at the time and in the same manner as the general tax levy for county purposes, and when collected shall be paid into the county treasury of said Los Angeles County to the credit of said district fund, and be used for the payment of the principal and interest on said bonds, and for no other purpose. The principal and interest on said bonds shall be paid by the county treasurer of said Los Angeles County in the manner provided by law for the payment of principal and interest on bonds of said county.

"SEC. 11. The provisions of the Political Code of this State, prescribing the manner of levying, assessing, equalizing and collecting of taxes, including the sale of property for delinquency, and the redemption from such sale, and the duties of the several county officers with respect thereto, are, so far as they are applicable, and not in conflict with the specific provisions of this Act, hereby adopted and made a part hereof. Such officers shall be liable upon their several official bonds for the faithful discharge of the duties imposed upon them by this Act.

"SEC. 12. The bonds of said Los Angeles County Flood Control District issued pursuant to this Act, shall be legal investments for all trust funds, and for the funds of all insurance companies, banks, both commercial and savings, and trust companies, and for the state school funds, and whenever any money or funds may by law now or hereafter enacted be invested in bonds of cities, cities and counties, counties, school districts or municipalities in the State of California, such money or funds may be invested in the said bonds of said district issued in accordance with the provisions of this Act, and whenever bonds of cities, cities and counties, counties, school districts or municipalities, may by any law now or hereafter enacted be used as security for the performance of any Act, such bonds of said district may be so used.

"This section of this Act is intended to be and shall be considered the latest enactment of the matters herein contained, and any and all Acts or parts of any Acts in conflict with the provisions hereof are hereby repealed.

"SEC. 13. All bonds issued by said district under the provisions of this Act are hereby given the same force, value and use as bonds issued by any municipality in this State, and shall be free and exempt from all taxation within the State of California.

"SEC. 14. The board of supervisors of said district shall have power, in any year, to levy a tax upon the taxable real property in said district, to carry out any of the objects or purposes of this Act, and to pay the cost and expense of maintaining, operating, extending and repairing any work or improvement of said district for the ensuing fiscal year, and said tax shall be levied and collected at the same time and in the same manner as the general tax levy for county purposes, and the revenue derived from said tax shall be paid into the county treasury to the credit of said district, and said board of supervisors shall have the power to control and order the expenditure thereof for said purposes; *provided, however*, that said tax levied under this section for any one fiscal year shall not exceed ten cents on each one hundred dollars of the assessed valuation of the real property in said district, exclusive of any tax levied to meet the bonded indebtedness of said district, and the interest thereon.

"SEC. 15. All contracts for furnishing the labor, materials or supplies required for any improvement or work, or any portion thereof, to carry out this Act, shall be let to the lowest responsible bidder. The said board of supervisors of said district shall advertise by five or more insertions in a daily newspaper of general circulation, or by two or more insertions in a weekly newspaper of general circulation, printed and published in said district, inviting sealed proposals for furnishing the labor, materials and supplies for the proposed improvement or work before any contract shall be made therefor, and may let by contract separately any part of said work or improvement. The said board shall have the right to require such bonds as it may deem best from the successful bidder, to insure the faithful performance of the contract, and shall also have the right to reject any and all bids; *provided, however*, that nothing herein contained shall be construed as prohibiting said district itself, and when ordered by the said board of supervisors thereof, it shall have power to make the proposed improvement or carry out any work or portion thereof without a contract therefor, and to purchase the materials and supplies, and employ the labor necessary for such purpose; *and, provided, further*, that any improvement for which bonds are voted under the provisions of this Act, shall be made in conformity with the report, plans, specifications and map theretofore adopted, and above specified, unless the doing of any of such work described in said report shall be prohibited by law, or be rendered contrary to the best interests of said district by some change of conditions in relation thereto, in which event said board of supervisors may, by a vote of four-fifths of all the members thereof, order necessary changes made in such proposed work or improvements, and may cause new plans and specifications to be made and adopted therefor.

"Any work or improvement provided for in this Act may be located, constructed and maintained in, along or across any public road or highways in the county of Los Angeles, in such manner as to afford security for life and property, but the said board of supervisors of said district shall restore or cause to be restored such road or highway to its former state as near as may be, so as not to impair its usefulness.

"The plans and specifications for any work proposed to be done, or improvements to be made, under this Act, in any municipality in said district shall first be approved by the legislative body of such municipality before the commencement of such work or improvements, and before any contract shall be let therefor; *provided*, that in the event such legislative body shall refuse or neglect to approve the said plans and specifications for such work or improvement within thirty days after being requested by said board of supervisors so to do, then said board of supervisors shall omit the doing of such work or making of such improvements within such municipality, and such omission shall not affect the validity of its proceedings under this Act, and the funds which were to be expended for such proposed work or improvement in said municipality may be expended elsewhere by said board of supervisors for carrying out the purposes of this Act.

"SEC. 16. The said board of supervisors of said district shall have power to make and enforce all needful rules and regulations for the administration and government of said district, and to appoint or employ all needful agents, superintendents and engineers to properly look after the performance of any work provided for in this Act, and to perform all other acts necessary or proper to accomplish the purposes of this Act.

"Said board of supervisors shall have power to do all work and to construct and acquire all improvements necessary or useful for carrying out any of the purposes of this Act; and said board of supervisors shall have power to acquire either within or without the boundaries of said district, by purchase, condemnation, donation or by other lawful means in the name of said district, from private persons, corporations, reclamation districts, swamp land districts, levee districts, protection districts, drainage districts, irrigation districts, or other public corporations or agencies or districts, all lands, rights of way, easements, property or materials necessary or useful for carrying out any of the purposes of this Act; to make contracts to indemnify or compensate any owner of land or other property for any injury or damage necessarily caused by the exercise of the powers conferred by this Act, or arising out of the use, taking or damage of any property, rights of way or easements, for any of such purposes; to compensate any reclamation district, protection district, drainage district, irrigation district or other district, public corporation or agency or district, for any right of way, easement or property taken over or acquired by said Los Angeles County Flood Control District as a part of its work of flood control or conservation or protection provided for in this Act, and any such reclamation district, protection district, drainage district, irrigation district or other district or public corporation or agency is hereby given power and authority to distribute such compensation in any manner that may be now or hereafter allowed by law; to maintain actions to restrain the doing of any act or thing that may be injurious to carrying out any of the purposes of this Act by said district, or that may interfere with the successful execution of said work, or for damages for injury thereto; to do any and all things necessary or incident to the powers hereby granted, or to carry out any of the objects and purposes of this Act; to compel by injunction the owner or owners of any bridge, trestle, wire line, viaduct, embankment or other structure which shall be intersected, traversed or crossed by any channel, ditch, bed of any stream, waterway, conduit or canal, so to construct or alter the same as to offer a minimum of obstruction to the free flow of water through or along any such channel, ditch, bed of any stream, waterway, conduit or canal, and whenever necessary in the case of existing works or structures, to compel the removal or alteration thereof for such purpose.

"In case of condemnation proceedings, the said board of supervisors shall proceed in the name of said district, under the provisions of title VII, part III, of the Code of Civil Procedure of the State of California, which such provisions are hereby made applicable for that purpose, and it is hereby declared that the use of the property, lands, rights of way, easements, or materials which may be condemned, taken or appropriated under the provisions of this Act is a public use subject to the regulation and control of the State in the manner prescribed by law, and said board of supervisors of said district is hereby vested with full power to do all other acts or things necessary or useful for the promotion of the work of the control of the flood and storm waters of said district, and to conserve such waters for beneficial and useful purposes, and to protect from damage from such storm or flood waters the harbors, waterways, public highways and property in said district; *provided, however*, that nothing in this Act contained shall be deemed to authorize said district, or any person or persons, to divert the waters of any river, creek, stream, irrigation system, canal or ditch, from its channel, to the detriment of any person or persons having any interest in such river, creek, stream, irrigation system, canal or ditch, or the waters thereof or therein, unless previous compensation be first ascertained and paid therefor, under the laws of this State authorizing the taking of private property for public uses; *and provided, further*, that nothing in this Act contained shall be construed as in any way affecting the plenary power of any incorporated city, city and county, or town, or municipal or county water district, to provide for a water supply of such public corporation, or as affecting the absolute control of any properties of such public corporations necessary for such water supply, and nothing herein contained shall be construed as vesting any power of control over such properties in said Los Angeles County Flood Control District, or in any officer thereof, or in any person referred to in this Act; *and provided, further*, that nothing in this Act contained shall be deemed to authorize said board of supervisors to raise money for said district by any method or system other than that by the issuing of bonds, or the levying of a tax upon the assessed value of all the real property in said district in the manner in this Act provided.

"SEC. 17. Said board of supervisors of said district shall have full power and authority to co-operate with and to act in conjunction with the State of California, or any of its engineers, officers, boards, commissions, departments or agencies, or with the government of the United States, or any of its engineers, officers, boards, commissions, departments or agencies, for the purpose of carrying out the work of controlling the flood or storm waters of said district, or for the protection of property, or of any of the harbors, channels, waterways, roads or highways in said district, and to adopt a definite plan or system of work for any such purpose, and when so adopted, no substantial change shall thereafter be made in the same without the express consent of the officer, board, commission or department or agency of the state or federal government in conjunction with which the same was originally adopted.

"SEC. 18. Whenever bonds have been issued by said district and the proceeds of the sale thereof have been expended as in this Act authorized, and said board of supervisors shall by resolution passed by a vote of four-fifths of all its members determine that the public interest or necessity of said district demands the issuance of additional bonds for carrying out the work of flood control, or for any of the purposes of this Act by said district, said board of supervisors may again proceed as in this Act provided, and have a report made and submit to the qualified voters of said district the question of issuing additional bonds in the same manner and with like procedure as hereinbefore provided, and all the above provisions of this Act for the issuing and sale of such bonds, and for the expenditure of the proceeds thereof, shall be deemed to apply to such issue of additional bonds.

"SEC. 19. Should the proposition of issuing bonds submitted at any election under this Act fail to receive the requisite number of votes of the qualified voters voting at such election to incur the indebtedness for the purpose specified, the said board of supervisors of said district shall have power and authority at the expiration of six months after such election, to call or order another election for incurring indebtedness and issuing bonds under the terms of this Act, either for the same objects and purposes, or for any of the objects and purposes of this Act.

"SEC. 20. No repeal or amendment of this Act which shall in any way affect or release any of the property in said district from the obligations of any outstanding bonds or indebtedness of said district, shall go into effect or be valid or become operative until all such bonds and outstanding indebtedness have been fully paid and discharged.

"SEC. 21. This Act, and every part thereof, shall be liberally construed to promote the objects thereof, and to carry out its intents and purposes.

"SEC. 22. In case any section or sections, or part of any section, of this Act, shall be found to be unconstitutional or invalid, for any reason, the remainder of the Act shall not thereby be invalidated, but shall remain in full force and effect.

"SEC. 23. This Act may be designated and referred to as the 'Los Angeles County Flood Control Act,' and any reference thereto by such designation shall be deemed sufficient for all purposes."

"'The legislative body shall in open session publicly open, examine, and declare the proposals or bids received. The legislative body may reject any and all proposals or bids should it deem this for the public good, and also the bid of any party who has been delinquent or unfaithful in any former contract with the municipality, and shall reject all proposals or bids other than the lowest regular proposal or bid of any responsible bidder, and may award the contract for said work or improvement to the lowest responsible bidder at the prices named in his bid. The presiding officer of the legislative body shall execute all written contracts under this Act on behalf of the municipality.

"'When such contract and bonds have been entered into, said check shall be returned to the successful bidder; the unsuccessful bidders shall receive their checks upon notice of rejection of their bids.

"Sec. 17. Section 20 of said Act is hereby amended to read as follows:

"'Sec. 20. If at any time an assessment for any local improvement under the provisions of this Act shall realize a larger sum than is necessary for such improvement, the excess shall be refunded upon warrants on the treasurer, authorized by the legislative body, pro rata, out of the special fund therefor, to the parties by whom it was paid; and, in the case of installment agreements such excess shall be credited on the unpaid installments, beginning with the one due at the latest date.

"'When there is a failure to receive any bid for doing the work contemplated under the provisions of this Act; or when by reason of the abandonment of the work by the contractor before completion and a failure to procure a bidder to complete the work after such abandonment by the contractor; or when by reason of a change in the condition of the ground in, over or along which the improvement is contemplated or is in process of construction under the provisions hereof, caused by the action of the elements; or when for any other reason it becomes impossible or impracticable to construct or complete the improvement under the plans, profiles, cross-section and specifications previously adopted by the legislative body in pursuance of proceedings had under this Act; then, and in any of such events, said legislative body shall have the right to pass a resolution abandoning said work or improvement.

"'In the event said work is so abandoned by the municipality prior to letting a contract for the performance of such work, or before any work has been performed, then and in that event, all money raised by assessment for doing said work and in the hands of the treasurer for that purpose (after deducting the incidental expenses actually incurred under such proceedings) shall be refunded upon warant on the treasurer, authorized by the legislative body, pro rata to the parties by whom it was paid; and in the case of installment agreements, shall be credited on the unpaid installments, beginning with the one due at the latest date.

The balance due on said installment agreements shall remain payable, together with interest, in the time and manner stated therein unless sooner paid and canceled as provided in section 16 of this Act; and none of the provisions of this section shall invalidate any of the proceedings under this Act prior to the adoption of the resolution declaring the said proceedings abandoned, or invalidate any bonds which shall have been issued and sold under the provisions of this Act, which bonds shall remain payable out of any funds to be collected from any unpaid assessment on lots or lands upon which installment agreements have been given. And the maturity of such bonds and interest may be advanced and the same paid and canceled as provided in section 21 of this Act.'

If at any time the treasurer pays any bond out of the general fund of the municipality under the provisions of this Act, it is hereby made the duty of the treasurer to reimburse the general fund of the municipality from the moneys thereafter received by him, through proceedings following default in the payment of the installments as herein provided. Whenever the contractor desires the work, or any part of it to be accepted, he must make a written application to that effect to the legislative body of the municipality. Upon such filing of such application for acceptance, the clerk of the municipality shall cause at least five days notice to be given by posting along the line of the work asked to be accepted that at a certain time and place to be named in said notice, the legislative body of the municipality will hear and consider any objections to the acceptance of the work or part of the work, for the acceptance of which said contractor has petitioned, and only after such hearing shall any work be accepted. If upon such hearing, objections to the acceptance thereof are made, and are held by the legislative body to be good, said body must require the contractor to take the necessary steps to remedy any defects in the said work, and in the event of his failure so to do, within such time as the legislative body shall prescribe, or an extension thereof, the said body may relet said portion of the work and charge the contractor the cost thereof, together with all expenses incident to said reletting and doing said work, and shall retain the same out of any moneys due or to become due to him under the contract, and also hold him and his sureties responsible therefor upon his bonds given. And upon such acceptance the work shall be paid for at the contract price in cash or by the delivery of bonds, *provided*, that not more than seventy-five per cent. of the amount due shall be paid to the contractor upon a partial performance of the work, and the remainder shall be retained until the whole work is completed.

In case said plans, profiles, cross-sections, and specifications are altered or changed during the process of construction and the contractor consents thereto and agrees to do the work under the altered or changed plans, profiles, cross-sections, and specifications at the estimated additional assessed price, if such there be, then a supplemental contract shall be entered into for doing said work for said price under said altered or new plans, profiles, cross-sections, and specifications.

" 'But in the event of the refusal of said contractor to continue said work and complete the same under said altered or changed plans and specifications at the said excess price, his refusal so to do shall be deemed an abandonment of the contract and said legislative body shall proceed to advertise for bids for the completion of said work as provided herein for advertising for bids in the first instance.' SENATE CONSTITUTIONAL AMENDMENT NUMBER TWENTY TWO.

A resolution to propose to the people of the State of California an amendment to the Constitution of said State, by amending section 1 of article IV thereof, relating to legislative powers, and reserving to the people of the State of California the power to propose laws, statutes and amendments to the Constitution and to enact the same at the polls independent of the Legislature and also reserving to the people of the State of California the power to approve or reject at the polls any Act or section or part of any Act of the Legislature.

The Legislature of the State of California, at its regular session commencing on the fourth day of January, 1915, two-thirds of all the members elected to each of the two houses of said Legislature voting in favor thereof, hereby proposes that section 1 of article IV of the Constitution of the State of California, be amended so as to read as follows:

SECTION 1. The legislative power of this State shall be vested in a Senate and Assembly which shall be designated "The Legislature of the State of California," but the people reserve to themselves the power to propose laws and amendments to the Constitution, and to adopt or reject the same, at the polls independent of the Legislature, and also reserve the power, at their own option, to so adopt or reject any Act, or section or part of any Act, passed by the Legislature.

The enacting clause of every law shall be "The People of the State of California do enact as follows."

The first power reserved to the people shall be known as the initiative. Upon the presentation to the Secretary of State of a petition certified as herein provided to have been signed by qualified electors, equal in number to eight per cent. of all the votes cast for all candidates for Governor at the last preceding general election, at which a Governor was elected, proposing a law or amendment to the Constitution, set forth in full in said petition, the Secretary of State shall submit the said proposed law or amendment to the Constitution to the electors at the next succeeding general election occurring subsequent to ninety days after the presentation aforesaid of said petition, or at any special election called by the Governor in his discretion prior to such general election; *provided*, that no law creating a bonded indebtedness shall be enacted under this provision without the assent of two-thirds of the qualified electors voting thereon. All such initiative petitions shall have printed across the top thereof in twelve-point black-face type the following: "Initiative measure to be submitted directly to the electors."

Upon the presentation to the Secretary of State at any time not less than ten days before the commencement of any regular session of the Legislature, of a petition certified as herein provided to have been signed by qualified electors of the State equal in number to five per cent. of all the votes cast for all candidates for Governor at the last preceding general election, at which a Governor was elected, proposing a law set forth in full in said petition, the Secretary of State shall transmit the same to the Legislature as soon as it convenes and organizes. The law proposed by such petition shall be either enacted or rejected without change or amendment by the Legislature, within forty days from the time it is received by the Legislature. If any law proposed by such petition shall be enacted by the Legislature it shall be subject to referendum, as hereinafter provided. If any law so petitioned for be rejected, or if no action is taken upon it by the Legislature within said forty days, the Secretary of State shall submit it to the people for approval or rejection at the next ensuing general election. The Legislature may reject any measure so proposed by initiative petition and propose a different one on the same subject by a yea and nay vote upon separate roll call, and in such event both measures shall be submitted by the Secretary of State to the electors for approval or rejection at the next ensuing general election or at a prior special election called by the Governor, in his discretion, for such purpose. All said initiative petitions last above described shall have printed in twelve-point black-face type the following: "Initiative measure to be presented to the Legislature."

The second power reserved to the people shall be known as the referendum. No Act passed by the Legislature shall go into effect until ninety days after the final adjournment of the session of the Legislature which passed such Act, except Acts calling elections, Acts providing for tax levies or appropriations for the usual current expenses of the State, and urgency measures necessary for the immediate preservation of the public peace, health or safety, passed by a two-thirds vote of all the members elected to each house. Whenever it is deemed necessary for the immediate preservation of the public peace, health or safety that a law shall go into immediate effect a statement of the facts constituting such necessity shall be set forth in one section of the Act, which section shall be passed only upon a yea and nay vote, upon a separate roll call thereon; *provided, however*, that no measure creating or abolishing any office or changing the salary, term or duties of any officer, or granting any franchise or special privilege, or creating any vested right or interest, shall be construed to be an urgency measure. Any law so passed by the Legislature and declared to be an urgency measure shall go into immediate effect.

Upon the presentation to the Secretary of State within ninety days after the final adjournment of the Legislature of a petition certified as herein provided, to have been signed by qualified electors equal in number to five per cent of all the votes cast for all candidates for Governor at the last preceding general election at which a Governor was elected, asking that any Act or section or part of any Act of the Legislature, be submitted to the electors for their approval or rejection, the Secretary of State shall submit to the electors for their approval or rejection, such Act, or section or part of such Act, at the next succeeding general election occurring at any time subsequent to thirty days after the filing of said petition or at any special election which may be called by the Governor, in his discretion, prior to such regular election, and no such Act or section or part of such Act shall go into effect until and unless approved by a majority of the qualified electors voting thereon; but if a referendum petition is filed against any section or part of any Act the remainder of such Act shall not be delayed from going into effect.

Any Act, law or amendment to the Constitution submitted to the people by either initiative or referendum petition and approved by a majority of the votes cast thereon, at any election, shall take effect five days after the date of the official declaration of the vote by the Secretary of State. No Act, law or amendment to the Constitution, initiated or adopted by the people, shall be subject to the veto power of the Governor, and no Act, law or amendment to the Constitution, adopted by the people at the polls under the initiative provisions of this section, shall be amended or repealed except by a vote of the electors, unless otherwise provided in said initiative measure; but Acts and laws adopted by the people under the referendum provisions of this section may be amended by the Legislature at any subsequent session thereof. If any provision or provisions of two or more measures, approved by the electors at the same election, conflict, the provision or provisions of the measure receiving the highest affirmative vote shall prevail. Until otherwise provided by law, all measures submitted to a vote of the electors, under the provisions of this section, shall be printed, and together with arguments for and against each such measure by the proponents and opponents thereof, shall be mailed to each elector in the same manner as now provided by law as to amendments to the Constitution, proposed by the Legislature; and the persons to prepare and present such arguments shall, until otherwise provided by law, be selected by the presiding officer of the Senate.

If for any reason any initiative or referendum measure, proposed by petition as herein provided, be not submitted at the election specified in this section, such failure shall not prevent its submission at a succeeding general election, and no law or amendment to the Constitution, proposed by the Legislature, shall be submitted at any election unless at the same election there shall be submitted all measures proposed by petition of the electors, if any be so proposed, as herein provided.

Any initiative or referendum petition may be presented in sections, but each section shall contain a full and correct copy of the title, and text of the proposed measure. Each signer shall add to his signature his place of residence, giving the street and number if such exist. His election precinct shall also appear on the paper after his name. The number of signatures attached to each section shall be at the pleasure of the person soliciting signatures to the same. Any qualified elector of the State shall be competent to solicit said signatures within the county or city and county of which he is an elector. Each section of the petition shall bear the name of the county or city and county in which it is circulated, and only qualified electors of such county or city and county shall be competent to sign such section. Each section shall have attached thereto the affidavit of the person soliciting signatures to the same, stating his own qualifications and that all the signatures to the attached section were made in his presence and that to the best of his knowledge and belief each signature to the section is the genuine signature of the person whose name it purports to be, and no other affidavit thereto shall be required. The affidavit of any person soliciting signatures hereunder shall be verified free of charge by any officer authorized to administer oaths. Such petitions so verified shall be prima facie evidence that the signatures thereon are genuine and that the persons signing the same are qualified electors. Unless and until it be otherwise proven upon official investigation, it shall be presumed that the petition presented contains the signatures of the requisite number of qualified electors.

Each section of the petition shall be filed with the clerk or registrar of voters of the county or city and county in which it was circulated, but all said sections circulated in any county or city and county shall be filed at the same time. Within twenty days after the filing of such petition in his office the said clerk or registrar of voters, shall determine from the records of registration what number of qualified electors have signed the same, and if necessary the board of supervisors shall allow said clerk or registrar additional assistants for the purpose of examining such petition and provide for their compensation. The said clerk or registrar, upon the completion of such examination, shall forthwith attach to said petition, except the signatures thereto appended, his certificate, properly dated, showing the result of said examination and shall forthwith transmit said petition, together with his said certificate, to the Secretary of State and also file a copy of said certificate in his office. Within forty days from the transmission of the said petition and certificate by the clerk or registrar to the Secretary of State, a supplemental petition identical with the original as to the body of the petition but containing supplemental names, may be filed with the clerk or registrar of voters, as aforesaid. The clerk or registrar of voters shall within ten days after the filing of such supplemental petition make like examination thereof, as of the original petition, and upon the completion of such examination shall forthwith attach to said petition his certificate, properly dated, showing the result of said examination, and shall forthwith transmit a copy of said supplemental petition, except the signatures thereto appended, together with his certificate, to the Secretary of State.

When the Secretary of State shall have received from one or more county clerks or registrars of voters a petition certified as herein provided to have been signed by the requisite number of qualified electors, he shall forthwith transmit to the county clerk or registrar of voters of every county or city and county in the State his certificate showing such fact. A petition shall be deemed to be filed with the Secretary of State upon the date of the receipt by him of a certificate or certificates showing said petition to be signed by the requisite number of electors of the State. Any county clerk or registrar of voters shall, upon receipt of such copy, file the same for record in his office.

The duties herein imposed upon the clerk or registrar of voters shall be performed by such registrar of voters in all cases where the office of registrar of voters exists.

The initiative and referendum powers of the people are hereby further reserved to the electors of each county, city and county, city and town of the State, to be exercised under such procedure as may be provided by law. Until otherwise provided by law, the legislative body of any such county, city and county, city or town may provide for the manner of exercising the initiative and referendum powers herein reserved to such counties, cities and counties, cities and towns, but shall not require more than fifteen per cent. of the electors thereof to propose any initiative measure nor more than ten per cent. of the electors thereof to order the referendum. Nothing contained in this section shall be construed as affecting or limiting the present or future powers of cities or cities and counties having charters adopted under the provisions of section 8 of article XI of this Constitution.

In the submission to the electors of any measure under this section, all officers shall be guided by the general laws of this State, except as is herein otherwise provided.

This section is self-executing, but legislation may be enacted to facilitate its operation and to protect petitions provided for herein from fraud and misrepresentation, but in no way limiting or restricting either the provisions of this section or the powers herein reserved.

Resolved by the Senate and Assembly, jointly, That our senators and representatives in congress be instructed and requested to use all honorable means to secure the passage of laws whereby the public lands or so much thereof as may be necessary may be set aside and utilized for the purpose contemplated in the foregoing preamble; that laws be so enacted as will practically contemplate the present laws regulating Indian affairs in the United States; that said laws provide that a rental may be charged for the use of said lands in order to pay interest on the cost of development; that the money deposited in the Postal Savings System may be used in developing the lands so set apart; that the title of said land shall remain in the United States in trust for the purposes herein contemplated, and as security for said postal savings so used; that rules be prescribed whereby the products raised or manufactured on said lands may be given a preference when sold to the United States; that the Indian system of schools, farming and manufacturing be followed;

PETITION—(OUT OF ORDER).

By consent of the Senate, the following petition was offered by Senator Slater, out of the regular order, and ordered printed in the Journal:

Senator Slater and Members of the Legislature, Sacramento, California:

WHEREAS, The State of California, since 1862, has encouraged the viticultural industry, by sending abroad commissioners to secure grape cuttings from all the principal wine producing countries of Europe; by establishing a separate department in the State University at Berkeley, to teach grape growing and wine making; by adding an agricultural school at Davis, where viticulture is now taught; by creating a State board of viticultural commissioners; and by appropriating nearly $300,000 to foster all this work; and

WHEREAS, The Department of Agriculture, U. S. A., has aided in the development of the viticultural industry by conducting valuable experiments at a dozen stations in different parts of the State for the benefit of the vineyardists; and

WHEREAS, The Federal Government has protected our dry wines by favorable tariff laws and encouraged the production of pure sweet wines under the act of 1890; and

WHEREAS, In view of all this encouragement, 15,000 settlers have invested money in the grape industry in the belief that they would be protected; and

WHEREAS, There are today in California 330,000 acres in vines, which, with the 700 wineries and numerous packing houses and shipping plants, represent an investment of $150,000,000 from which the State derives an annual income of $30,000,000; and

WHEREAS, Efforts are being made to destroy this valuable industry by preventing the manufacture of wine, thus wiping out the sole market for the grapes of thousands of desirable vineyardists; therefore, be it.

Resolved by the Molino Grape Protective Association, That we heartily endorse the sentiments expressed in Assembly Constitutional Amendment No. 40, introduced by the Hon. Bismarck Bruck, which provides that "No law or constitutional amendment which shall damage, injure or destroy the value of or prevent the use of any vineyard, wine cellar, hop field, brewery, distillery or other property used in producing, growing or raising grapes or hops, or in manufacturing or producing or shipping wine, beer, malt or distilled liquors, existing at the time of the passage or adoption of such law or constitutional amendment, shall take effect until just compensation shall have been first made to or paid into court for the owner"; and be it further

Resolved, That this resolution be spread on the minutes of this meeting and a copy be forwarded to Governor Johnson and to our representatives in the Senate, and Assembly, with the request that they do all in their power to bring about the adoption of Assembly Constitutional Amendment No. 40.

NOTICE OF MOTION TO RECONSIDER.

Senator Benson gave notice that on the next legislative day he would move to reconsider the vote whereby Senate Bill No. 310 was passed.

EXPLANATION OF VOTE.

Senator Butler asked for, and was granted, unanimous consent to have the following explanation of his vote on Senate Bill No. 310 printed in the Journal.

MR. PRESIDENT: In explanation of my vote on Senate Bill No. 310, I have this to say:

I have always endeavored in deciding any question, to look at both sides as far as may lie within my power. I hold no brief for drugless healers, but there is a principle by which I have always endeavored to be guided and that is, that every person and every class of persons is entitled to the same consideration accorded to other persons or classes of persons.

Senate Bill No. 310 seeks to create a board of drugless healers and prescribes for them the standards of education which shall govern the issuing of licenses to practice drugless healing in this State. It does not seek to license them to practice medicine or surgery. It does not permit them to issue death certificates, and prescribes certain limitations beyond which they shall not go. The number of hours of study required in Senate Bill No. 310 for drugless practitioners is greater by some few hundred hours than the time required by Senate Bill No. 443; therefore it could not be contended that Senate Bill No. 310 would lower the standard of education for drugless practitioners.

On the other hand, as stated above, it would raise that standard. I do not understand that it is necessary for a person to have a medical education in order to practice drugless healing. It is, however, necessary that certain preliminary requirements should be adhered to, and that as I understand it, is provided for in Senate Bill No. 310. It was contended by the opponents of this bill that Senate Bill No. 443 made provision for issuing licenses to drugless healers, and this I shall not attempt to deny. But the provisions as laid down in that measure, make it so difficult for any one who desires to practice drugless healing, to fill the requirements, that it is safe to assume that very few, if any, would ever be able to take the examination, much less pass it and obtain a certificate from the State Board of Health of this State.

Although a member of the medical profession, when I entered the legislative halls of this State as a member, I left my medicine case and everything pertaining thereto, behind me and have endeavored to vote upon all questions pertaining to medical legislation as I would vote upon any other measures and decide for myself according to the merits of the case as I understand them.

In this instance, I tried to forget my calling and place myself in the position to pass without prejudice, upon the merits of this bill. I feel that the people who desire to practice drugless healing in this State, are entitled to fair consideration. I also feel that the people of the State of California who desire to avail themselves of the services of drugless practitioners, should have that right, and it was for those reasons that my vote was cast in favor of the bill. I believe in a high standard of education for those who enter the medical profession, and have never, at any time, sought to have them lowered. I believe, also, in a high standard of education for those who practice drugless healing but believe that they should be given the same consideration and the right to practice their profession that is given to doctors of medicine.

This explanation is for the purpose of refuting statements emanating from certain sources that it was my desire to lower the standard of medical education in this State. This statement is in no sense intended as an apology for I have no apologies to make, but simply to place myself on record as being in favor of doing unto others as I would like that they should do unto me.

E. M. BUTLER.

EXPLANATION OF ABSENCE FROM ROLL CALL ON SENATE BILL NUMBER EIGHT HUNDRED FIFTY-FIVE.

I was unavoidably absent from the Senate Chamber when the vote was taken on Senate Bill No. 855, which increases the salary of a certain State official. I am opposed to all increases in salary of State officers or employees at this time, owing to the stringency in financial affairs in general and to the depleted condition of the state treasury in particular. In my opinion, the salaries of officers and employees of the State should not be raised when the people are suffering financially and when the number of the unemployed and poverty looms large, as it does now. Had I been present when the vote on Senate Bill No. 855 was taken, I would have voted "No."

LYMAN M. KING.

Strike out all of section 1 and all the rest of said bill after the enacting clause and insert in lieu thereof the following:

"SECTION 1. The State of California hereby accepts the conditions of section 4 of an Act of Congress entitled, 'An Act making appropriation for sundry civil expenses of the Government for the fiscal year ending June 30, 1894, and for other purposes,' approved August 18, 1894, together with all the grants of land to the State under the provisions of the aforesaid Act. The selection, reclamation and disposal of said land shall be vested in a commission which shall consist of the Secretary of the Department of Natural Resources, whenever such officer shall be appointed and until such appointment is made, one of the members of the State Water Commission to be named by said commission, the State Engineer and the Surveyor General and which commission shall hereafter be designated the "Carey Act Commission." The Secretary of Agriculture whenever such officer shall be appointed, and until such appointment, the Dean of the College of Agriculture of the University of California, and the President of the State Water Commission shall act as an advisory board to the said Carey Act Commission.

"SEC. 2. The Commission shall elect from among its members, a president and a secretary. The President of the Commission shall preside at all meetings of the Commission and shall have authority to call special meetings of the Commission and he shall do so when requested by any one of the other members. The Secretary of the Commission shall execute the will of the Commission in all matters relating to this Act. He shall have the custody of the records of the Commission and shall receive and file all proposals for the construction of irrigation works to reclaim lands selected under the provisions of this Act. The Surveyor General shall be register of all lands which may be selected and shall keep for public inspection maps or plats on a scale not less than two inches to the mile of all lands selected, receive entries of settlers on these lands and hear or receive the final proof of their reclamation and do any and all work required by the Commission in carrying out the provisions of this Act, relating to the disposal of such lands. He shall have authority to administer oaths, whenever necessary, in the performance of the duties of register.

"SEC. 3. Whenever it shall appear to the board of supervisors of any county that it would be advisable to reclaim by irrigation, under the provisions of this Act, any desert public land, situated within such county, such board may by appropriate resolution, petition the State Engineer to make such an investigation as would determine the feasibility of such reclamation. Whereupon the State Engineer shall make or cause to be made an investigation of such lands, and if it should be the opinion of the State Engineer that it is feasible to reclaim by irrigation such lands, he shall report the fact to the Commission, and, thereupon the Commission shall direct the State Engineer to make, when necessary, such further investigations as would determine the location and description of the lands, which may be thus reclaimed. The Commission may make application to the United States Department of the Interior upon behalf of the State of California for the temporary withdrawal of such land, pending a more complete investigation and survey preliminary to the filing of the maps and plats and application for segregation.

"SEC. 4. As soon as such temporary withdrawal of land shall have been made by the Secretary of the Interior, it shall be the duty of the State Engineer to make an investigation of the water supply and make such surveys as will determine the feasibility of irrigating such lands and the approximate cost of the same. If it should appear from such investigation and surveys that the irrigation of the lands would not be feasible, the State Engineer shall so report to the Commission and it shall then be the duty of the Commission to so notify the Department of the Interior, in order that such lands may be restored to the public domain; but, if the Commission shall be satisfied that there is an adequate supply of water for the irrigation of such lands and that the construction of works for the irrigation of such lands is entirely feasible and the Commission should decide that the State would be benefited through the irrigation and settlement of such lands, the Commission shall direct the State Engineer to make such additional investigations and surveys and prepare such plans as may be necessary to determine the cost of such works as would be needed to irrigate such lands and the Commission may then enter into a contract on behalf of the State of California, with the United States, for the construction of such works as may be necessary for the proper irrigation of such land in pursuance of the Act of Congress known as the Carey Act, and the rules and regulations of the Department of the Interior relating thereto; *provided, however*, that such project shall have first been approved by the State Engineer, and by both members of the Advisory Board.

"SEC. 5. Before finally deciding as to the feasibility of irrigating lands under this Act, the Commission shall request the State Water Commission to report, in writing, their opinion as to whether or not an adequate supply of unappropriated water is available for the irrigation of such lands. It shall be the duty of the State Water Commission to make such report and recommendations in writing. At the same time and in the same manner the Secretary of Agriculture or the Dean of the College of Agriculture, as may be, shall be requested to report his opinion in relation to the land of such project as to its character and fertility, and as to soil or drainage problems then existing or which may follow the irrigation of the lands, and if it should be his opinion that the value of such land, or any portion of such land, after irrigation would not fully justify the estimated cost of such irrigation, the Commission shall not enter into a contract for the irrigation of any of the lands which may be adversely reported upon. All such written reports and advice shall be furnished to the Commission free of charge.

"SEC. 6. Whenever a contract shall have been entered into by the Commission with the United States Department of the Interior for the irrigation of desert public lands under the provisions of this Act, the lands of such project shall be designated by the Commission and be known as the ________________ (name to be given) ________________________ State Irrigation District, and the Commission shall have the power and it shall be its duty to provide for the construction of the necessary works for the irrigation of such lands, to manage and conduct the business affairs of such district, to make and execute all necessary contracts of employment and appoint such agents, officers and employees as may be required and prescribe their duties. The Commission and its agents and employees shall have the right to enter upon any land, to make surveys and locate the necessary irrigation works and the line for any canal or canals and the necessary branches for the same on any lands which may be deemed best for such location. Such Commission shall also have the right to acquire by purchase, lease, contract, condemnation or other legal means all lands and waters and water rights and other property necessary for the construction, use, supply, maintenance, repair and improvements of said canal or canals and works, including canals and works constructed and being constructed by private owners, lands for reservoirs for the storage of needful waters and all necessary appurtenances and also, where necessary or convenient to said ends, to acquire and hold the stock of other corporations owning waters, canals, waterworks, franchises, concessions or rights. Such Commission may also construct the necessary dams, reservoirs and works for the collection and distribution of water for said district and do any and every lawful act necessary to be done that sufficient water may be furnished to all of the lands of such district for irrigation and domestic purposes. The said Commission is hereby authorized and empowered to take conveyances, leases, contracts or other assurances for all property acquired by it under the provisions of this Act in the name of the State in behalf of such state irrigation district to and for the uses and purposes herein expressed and to institute and maintain any and all actions and proceedings, suits at law or in equity necessary or proper, in order to fully carry out the provisions of this Act or to enforce, maintain, protect or preserve any and all rights, privileges and immunities created by this Act or acquired in pursuance thereof. And in all courts, actions, suits or proceedings the said Commission may sue, appear and defend, in person or by attorneys and in the name of the State in behalf of such state irrigation district. It shall be the duty of said Commission to establish equitable by-laws, rules and regulations for the distribution and use of water for the lands of such district, and for the administration and disposal of the lands of such district, which must be printed in convenient form for distribution. Said Commission shall have power, generally, to perform all such acts as shall be necessary to fully carry out the purposes of this Act.

"SEC. 7. Whenever it shall appear to the Commission that the irrigation of public land of a proposed state irrigation district under the provisions of this Act would be feasible and that an adequate supply of water exists and is available for the purpose, it shall be the duty of the Commission to appropriate in the name of the State of California for such state irrigation district an amount of unappropriated water as may be available and necessary for the irrigation of such land, such appropriation to be made in pursuance of the provisions of the Water Commission Act and acts amendatory thereof, and the rules and regulations of the State Water Commission; but no fees shall be paid to the State Water Commission for any services which may be rendered by such Commission in connection with any permit or license which may be granted under any such appropriation, but such charges as may be provided by law for the diversion of water for irrigation shall be paid to such State Water Commission as soon as any of the water thus appropriated shall be diverted for use upon the land of any district and for the quantity of water thus diverted.

"SEC. 8. For the purpose of constructing necessary irrigation canals and works and acquiring the necessary property and rights therefor and for the purpose of acquiring waters, water rights and other property necessary for the purposes of a state irrigation district and otherwise carrying out the provisions of this Act, the Commission may as soon after a contract has been entered into with the United States for the irrigation of the lands of a district and also whenever thereafter the construction fund has been exhausted by expenditures herein authorized therefor and it is necessary to raise additional money for such purposes, estimate and determine the amount of money necessary to be raised. For the purpose of ascertaining the amount of money necessary for such purposes or any of them said Commission shall cause such surveys, examinations, drawings and plans to be made of a district as shall furnish the proper basis for an estimate of the cost of irrigating the lands of such district. All such surveys, examinations, drawings, plans and the estimate of cost based thereon shall be made by or under the direction of the State Engineer and shall be certified by him and a report of such irrigation plans shall be prepared by him which report shall contain a description of the lands to be irrigated, the works to be constructed and shall also state his conclusions as to the supply of water available for the use of the district. The estimated cost of a project under this Act shall include in addition to the cost of the works proposed and the purchase of land and other rights of way needed for their construction and for the use of such district, the estimated discounts or cost of credit which it would be necessary to establish; interest during the period of construction; overhead and other carrying charges and reasonable contractor's profit commensurate with the risks involved; and the total estimate thus obtained shall be the estimated reasonable expense of irrigation or the 'irrigation charge' against the lands to be irrigated. After receiving such report the Commission, if it shall be convinced and shall declare by resolution that the supply of water available for the use of the district is sufficient for all purposes and that the said project is in all other respects feasible, shall make an order determining the amount of bonds that should be issued in order to raise the amount of money needed for the purpose or purposes for which said bonds are desired; and, said bonds may be issued as provided by this Act and when so issued shall constitute a lien or liens against the lands of a district to be thus reclaimed as contemplated by the Act of Congress, approved June 11, 1896, (29 Stat. 413-434) and shall be valid on and against the separate legal subdivisions of land thus reclaimed and irrigated, for the actual cost and necessary expense of reclamation and reasonable interest thereon from the date of reclamation until disposed of to actual settlers; and, after the reclamation and settlement of any lands thus reclaimed such bonds shall remain a lien against such lands and shall be superior and prior to any other lien which may be created until paid, and the Commission is hereby authorized to issue bonds under such lien to be secured by the same and may, from time to time, as provided in section 9 of this Act, sell said bonds, the proceeds to be used only for the reclamation of such lands, such total issue of bonds to have a par value not to exceed the total estimated irrigation charge against the lands of such district.

"SEC. 9. The Commission may sell such bonds, from time to time, and in such quantities as may be necessary and most advantageous to raise money for the construction of such canals and works, the acquisition of property and rights, or the acquisition of any water or water rights or otherwise to fully carry out the objects and purposes of this Act. Before making any such sale, the Commission shall, at a meeting, by resolution, declare its intention to sell a specified amount of the bonds and the day and hour and place of such sale, and shall cause such resolution to be entered in the minutes and notice of the sale to be given by publication thereof, for at least three weeks, in some newspaper published in the county in which the district is situated and in any other newspaper at its discretion. The notice shall state that sealed proposals will be received by the Commission at their office for the purchase of bonds till the day and hour named in the resolution. At the time appointed the Commission shall open the proposals and award the purchase of the bonds or any portion or portions thereof to the highest bidder or bidders *provided, however,* that they may reject any or all bids.

"SEC. 10. In case the money raised by the sale of bonds issued be insufficient or in case the bonds be not available for the completion of the plan of canal and works adopted and the acquisition of the necessary property, waters and water rights therefor and additional bonds be not voted, it shall be the duty of the Commission to provide for the completion of said plan and the acquisition of such necessary property, waters and water rights by levy of assessments therefor on or before the first Monday in August in each year, and the Commission shall levy an assessment against all the land included in a district which may be subject to assessment to raise the annual interest on the outstanding bonds of such district and, in any year in which any bond shall fall due it must increase such assessment to an amount sufficient to raise a sum sufficient to pay the principal of the outstanding bonds as they mature and pay the cost of operating and maintaining the canal system of the district; also sufficient to pay in full all sums due or that shall become due from the district before the time of levying the next annual assessment on account of rentals or charges for lands, water, or water rights acquired by said district under lease or contract; also sufficient to pay in full the amount of any other contract or obligation of the district which shall have been reduced to judgment; *provided, also,* that the Commission shall have authority to charge a toll or rental for the delivery of water in an amount sufficient to pay the cost of operating and maintaining the canal system; or, such expense may be met by both assessment and tolls in such proportion as the Commission might decide would be most advantageous to the land owners of such district.

"SEC. 11. Whenever such fund shall amount to the sum of ten thousand dollars in excess of an amount sufficient to meet the interest coupons due, the Commission may direct the Treasurer to pay such an amount of such bonds due as the money in said fund will redeem at the lowest value at which they may be offered for liquidation after advertising in the manner hereinbefore provided for the sale of bonds, for sealed proposals for the redemption of such bonds. Said proposals shall be opened by the Commission in open meeting at a time to be named in the notice and the lowest bid for said bonds must be accepted; *provided*, that no bond shall be redeemed at a rate above par. In case the bids are equal, the lowest numbered bond shall have the preference. The Commission is hereby empowered to extend such authority to such district advisory board as may be deemed for the best interests of such district.

"SEC. 15. When the Commission shall have made an estimate of the cost of a project, it shall invite bids or proposals for the construction of the necessary works by publication, for a period of six weeks in not more than six newspapers of weekly issue as in the opinion of such Commission would be most likely to bring the matter to the attention of persons best able to undertake the construction of the works proposed. Such notice shall contain a brief description of the works proposed, the volume and kind of material to be moved, the kind of structures to be built, and the total estimated cost of the project and the place or places where plans, estimates and specifications can be inspected. Such bids or proposals shall be received by the Commission on the day and hour stated in the publication and such Commission shall thereupon examine all such bids or proposals as may be submitted and shall accept the proposal of the lowest and most responsible bidder, provided the price at which it is proposed such works would be constructed is not greater than the total estimated cost of such project as prepared by such Commission or such Commission may reject any or all of such bids. If the price submitted for the construction of such works should be greater than the total estimated cost prepared by the Commission, the Commission shall arrange for a public hearing and may summon witnesses to testify as to the reasonableness of any price or terms which may have been submitted or may receive other proposals and the Commisison may, after a careful consideration of all evidence which may be submitted and representations that may be made at such hearing, accept a proposal for a price greater than the estimated cost of the project prepared by such Commission. Each bid or proposal that may be submitted shall be accompanied by a certified check made payable to the Commission, equal in amount to two per cent. of the estimated cost of such project, which check shall be forfeited to such Commission if the individual, firm, association or corporation submitting such bid or proposal shall, after its acceptance by the Commission, refuse to enter into a contract with the Commission for the construction of the works of such project as provided by the general terms of such proposal and such Commission shall deposit with the State Treasurer the amount thus forfeited and the State Treasurer shall place the same to the credit of the Bond Guarantee Fund created under the provisions of section 38 of this Act; ***provided, further***, that no proposal for the construction of irrigation work shall be accepted until the Commission shall have satisfied itself that the individual, firm, association or corporation submitting the same is financially able to carry the undertaking to completion within the time specified and under the terms provided and for the amount agreed to in such proposal.

"SEC. 16. The individual, firm, association or corporation, whose proposal for the construction of the works of any irrigation project to be constructed under the provisions of this Act has been accepted by the Commission shall, within a period of thirty days from the date of such acceptance, be prepared to enter into a contract with such Commission for the construction of such works in accordance with the plans, specifications and terms upon which the acceptance of such proposal is based, such contract to be accompanied by a satisfactory bond on the part of the proposed contractor for the construction of such works, which bond shall be in a penal sum equal to fifteen per cent. of the estimated cost of the works and shall be conditioned for the faithful performance of the provisions of the contract with the State of California, but the Commission shall have the authority to extend the time of entering into such agreement, but such time shall not be extended more than ninety days from the date of the acceptance of such proposal. The plans, specifications and terms upon which the accepted proposal is based, shall be made a part of the contract; the time for the completion of the works shall also be stated, which shall not be more than five years from the date of the acceptance of the proposal; but, in the case of works of great magnitude the Commission shall have authority to extend the time for completion not exceeding two years. All contracts shall state that work shall begin within three months from the date of the contract and that such work shall be prosecuted diligently and continuously and at a rate commensurate with the magnitude of the undertaking and which would, at all times, insure its completion by the time agreed to in such contract; ***provided, further***, that if there shall be an interruption of work on any of the controlling features of such project, as may be determined by the State Engineer, caused by flood, storms, or other natural causes, the Commission may grant an extension equal to such delay. All work to be done under the provisions of this Act shall be in pursuance of plans and specifications to be prepared by the State Engineer and all such work shall be under his supervision and shall be completed to his satisfaction. A failure to complete the works within the time required by the contract or an extension thereof as herein provided shall forfeit to the State all rights under the same.

"SEC. 17. Upon the failure of any parties having a contract with the State for the construction of irrigation works to begin the same within the time specified by the contract or to complete the same within the time or in accordance with the specifications of the contract to the satisfaction of the Commission, it shall be the duty of the Commission to give such parties written notice of such failure and if after a period of thirty days from the sending of such notice, they shall fail to proceed with the work or to conform to the specifications of their contract with the State, the bond and contract of such parties and all work that may have been performed under such contract and all the material entering therein or which may be delivered or the works constructed or to be constructed thereunder shall be at once and thereby forfeited to the State; and it shall be the duty of the Commission at once to so declare and give notice once each week for a period of four weeks in some newspaper in general circulation in the county or counties in which the work is situated and in one newspaper at the State capital, in like manner and for a like period of the forfeiture of such contract and that upon a fixed day, proposals will be received at the office of the Commission for the completion of such contract and the time for receiving said proposals shall be at least sixty days subsequent to the issuing of the last notice of forfeiture. And the Commission shall have authority to accept a proposal for such completion and may enter into a contract for the same as in the case of an original proposal; and if by reason of a failure or forfeiture under a contract or for any other cause the total cost of a project should exceed the original estimated irrigation charge, the Commission shall have the authority to make such equitable distribution or addition of any such excess or increased cost to any or all of the farm units of such district as, in the judgment of such Commission may be deemed just and such adjusted or increased irrigation charge shall, thereafter, be the basis for all assessments against such farm units as contemplated by the provisions of this Act.

"SEC. 18. The contract for the construction of works of a district shall provide that payments shall be made to the contractor only as lands are open to entry from time to time and there shall be due and payable at such times only such amounts as would equal the total irrigation charge against such land as shall have been provided with means of irrigation.

"SEC. 19. As soon as the estimated irrigation charge shall have been determined, it shall be the duty of the State Engineer to make a classification of the lands of such district, dividing it into farm units and noting the location and area of the irrigable and non-irrigable land of each of such farm units, which may be of varying size, but none of such farm units shall be greater than 160 acres or less than 20 acres and he shall charge the irrigation charge or cost of the project against such farm units in the proportion of the benefits which it is estimated would be derived by each of such farm units from the construction of such works; and the amount thus charged against any farm unit, or the proportion which such charge bears to the total cost of such project, shall be the basis of assessment during the period of construction and when construction is completed and the irrigation charge is finally adjusted shall be and remain the basis of all assessments which may thereafter be made against such farm units under the lien that may be created against any or all of the lands of such project in pursuance of the provisions of this Act, and of the Act of Congress approved June 11, 1896. (29 Stat. 413-434.)

"SEC. 20. Whenever the Commission shall decide to proceed with the construction of works for the irrigation of the lands of a State irrigation district and to issue bonds for the payment of the same, and before any of such lands shall be open for entry, the Commission shall file for record in the office of the county recorder, in the county or counties in which such lands may be situated, a map on tracing linen, on a scale not less than two inches to the mile, on which shall be shown the lands of such State irrigation district that are to be irrigated, subdivided into farm units, together with a list of such farm units; and there shall be noted on such map in each farm unit subdivision and on such list of lands the irrigation charge which has been made against each of such farm untis, which charge shall serve as a basis for assessments as provided in section 19 of this Act. And there shall also be recorded a certified copy of the resolution of the Commission providing that such irrigation charge shall become a lien against the lands of the district and the subdivisions thereof on the basis indicated on such map and list; also a certified copy of the resolution or resolutions providing for the issuing of bonds for the construction of such works shall be filed for record by the Commission with such recorder or recorders. Any owner of private lands, situated within the limits of a project to be constructed under the provisions of this Act may have such lands included in such project, by entering into an agreement with the Commission, which agreement shall provide that an equitable portion of the cost of such works shall be charged against such land on the same basis and in the same manner followed in the case of the public lands of the project and that any area of land in private ownership, which it may be desired to thus include, in excess of any farm unit area which shall be decided by the Commission and not to exceed 160 acres, shall be subdivided by the State Engineer into farm units and sold by the Commission at a price and on terms to be agreed to with the Commission, the price at which such land may be sold to be not greater than two and one-half times its assessed value at the time such agreement is made; and such owner shall also agree that the cost of irrigation shall be a first lien against his land, the terms of such lien to be the same in every respect as the lien which may be created against the public land of the project; and he shall execute a mortgage against such land as would enable the Commission to establish such a lien; also that such land shall be incorporated into and be subject to all assessments which may be made by order of such Commission; and, when the owner of any privately owned lands shall have thus entered into such contract the Commission may, if it shall be deemed to be to the best interests of the project, declare such privately owned lands a part of the project and of the state irrigation district, which is to be created or may have been created and shall indicate each unit of such lands, with the irrigation charge noted, on the map of such district and shall add such lands to the list of lands to be recorded as herein provided.

"SEC. 21. Upon the final completion of the works of a project the Commission shall file for record with the county recorder of the county or counties in which the project is situated, an amended map of the project and a list of all lands on which shall be noted the irrigation charges as they may finally be adjusted by the Commission, together with appropriate resolutions in relation thereto, and such amended map and list and resolution shall then become the final basis of all future assessments to be made against the lands of such project in carrying out the provisions of this Act; and, the recorder of a county in which such project or any portion of a project is situated shall at the request of the Commission receive and record all resolutions of the Commission relating to the creation of a lien against the lands of a state irrigation district and the list of the lands thereof and shall file in a plat book to be provided for such purpose all the maps and plats of the lands of such district that may be offered for record.

"SEC. 22. No entry of land made under the provisions of this Act shall be assignable except to the State of California, and shall not be re-entered until at least sixty days after such assignment and not until the Register has by publication, once each week for a period of four weeks in a newspaper published in the county in which such land is situated and in another newspaper of general circulation to be selected by the Register advertised that such land will be open to re-entry at the office of the Commission or its agent in the county in which such land is situated at an hour and date which shall be not less than fifteen nor more than thirty days subsequent to the last date of such publication and describing such land and the appraised value of any improvements which may have been placed upon the same as determined by the Commission and stating that the right to re-enter any such farm unit or units will be awarded to the highest qualified bidder for the same; and the Commission shall not be obliged to return to the previous entryman all or any portion of any amount which may thus be received from the sale of the improvements which may have been placed upon such entry by him, the value of which shall have been appraised, but the Commission may place any or all of the money thus received in the Bond Guarantee Fund of such district. The Commission shall cancel any entry for non-compliance with the provisions of this Act relating to the payment of tolls, water rentals or assessments or for failure to cultivate or reside upon such entry in the manner provided by this Act and in accordance with the rules and regulations in relation to the same as may be provided by such Commission, and, in the event of such cancellation such entry shall be re-entered in the manner herein provided.

"SEC. 23. Within six months after entering land under the provisions of this Act the entryman shall become an actual and bona fide resident upon such land and shall continue to reside upon such land during at least six months of each year until patent shall have been granted to him for the land embraced in such entry. And within the irrigation season next following the date of entry of land the entryman shall prepare for irrigation and shall irrigate and cultivate to crops twenty-five per cent. of the irrigable area of such entry and during the second irrigation season he shall prepare for irrigation and shall irrigate and cultivate to crops one half of the irrigable area of such entry; and, during the third irrigation season he shall prepare for irrigation and shall irrigate and cultivate to crops seventy-five per cent. of the irrigable land of such entry Such classification as to irrigability to be made by the State Engineer, as provided in section 19 of this Act. Four years from the date of entry the entryman shall offer final proof of residence upon and cultivation of his entry before the Register or a representative of such Register in the county in which such land is situated and if such final proof is accepted the Commission shall issue a patent in the name of the State to such entryman; *provided*, that at the time of such final proof seventy-five per cent. of the irrigable area of such entry shall have been prepared for irrigation and shall be irrigated and cultivated. The Commission shall provide suitable rules for the filing of proposals for constructing irrigation works and for the entry of and the payment for the land by settlers; for offering annual and final proof and for the forfeiting of entry upon failure to comply with the provisions of this Act, and in relation to other duties and obligations of the entryman in carrying out the provisions of the Act. Such rules and regulations shall be designed to carry out the chief purpose of this Act which is that speculation in such lands may be prevented and that they may be entered by actual settlers who will put them to the beneficial use intended so repayment of the cost of reclamation may be assured.

"SEC. 24. The construction of all irrigation works of a state irrigation district shall be prosecuted in regular order beginning at the upper end of such district to be irrigated and continuing towards the lower end, and all diverting works, main canals, laterals and structures shall be completed as such work proceeds, so that all the land tributary thereto may be irrigated and whenever irrigation facilities shall have been completed for the irrigation of one-fifth of the area of an irrigation district the Commission shall accept such works, provided they shall have been completed to the satisfaction of the State Engineer; and thereupon the Commission shall, within thirty days from such acceptance declare open to public entry such portions of the lands of such project as have been provided with irrigation facilities and for which water is available for irrigation; and it shall be the duty of the Commission, by publication once each week in some newspaper of the county in which such lands are situated and one newspaper each in Sacramento, San Francisco, and Los Angeles, for a period of four weeks to give notice that said land is open for settlement, the price for which said land will be sold to settlers by the State and the average irrigation charge against such land and the terms of payment; also, any privately owned lands which may be held under contract for sale by the Commission and the price at which such land will be sold to actual settlers and the terms of the same; and, from time to time thereafter as works are completed for the irrigation of the lands of such district such works shall be accepted and such land shall be thrown open to entry; but each of the first four public openings of lands of a district shall contain an area not less than one-fifth of the total area of the district unless one of such openings shall include all the remaining lands of such district.

"SEC. 25. Any citizen of the United States or any person having declared his intentions to become a citizen of the United States, excepting married women, unless head of a family, over the age of twenty-one years, may make application, under oath to the Register, or his agent, to enter a single farm unit and such application shall set forth that the person desiring to make such entry does so for the purpose of actual reclamation, cultivation and settlement in accordance with the Act of Congress and the laws of this State relating thereto, and that the applicant has never received the benefit of the provisions of this Act and that such application is made subject to such rights of way as may be deemed necessary by the Commission for the construction of irrigation works and their proper operation and maintenance thereafter, and to all the provisions of this Act with respect to the lien against such land which may have been created or may be created by the authority of the Commission, and subject to the authority of the Commission in all matters relating to the levying and collecting of assessments, tolls and water rentals of every kind and subject to the authority of the Commission in relation to the control and operation of the irrigation system. All applications for entry shall be accompanied by a payment of one dollar per acre, which will be returned to the applicant if the application is not allowed. If the application is allowed a certificate shall be issued to the applicant and all certificates when issued shall be recorded in a book to be kept for that purpose. The Commission will dispose of all lands accepted by the State under the provisions of this Act, at a uniform price of one dollar per acre. The application shall also be accompanied by any amounts or charges which may have been assessed against such land and which are due and payable; also by a payment of not less than ten per cent., nor more than twenty per cent. of the irrigation charge made against the farm unit applied for, as the Commission, in its discretion may decide, and such payment shall be a uniform percentage of such irrigation charge against all the lands of such district and such payment shall be deposited by the Commission with the State Treasurer, in a fund to be known as the __________ State Irrigation District Bond Guarantee Fund to be employed by the Commission as provided by section 38 of this Act, and a similar payment shall be made by the owner or holder of any privately owned land which may have been included in such district and by the purchaser or purchasers of any of such land which may be sold by the Commission under contract provided in section 20 of this Act and the payment thus made shall also be placed in such bond guarantee fund; *provided*, in the case of such private lands the payment of such percentage of the irrigation charge shall be made at the time such lands are included in such district or when such lands are sold by the Commission or under its authority.

"SEC. 26. On or before the first Monday in August in each year the Commission shall prepare or cause to be prepared a list of assessments to be levied under the provisions of this Act such assessments to be based upon the irrigation charge made against the lands of such district on the basis provided in section 19 of this Act. Such Commission shall compute and enter in a separate column of the assessment book the respective sums in dollars and cents to be paid as an assessment on the property therein enumerated. When collected the assessment shall be paid by the Commission into the office of the State Treasurer, there to be apportioned to the several funds as herein provided. The assessment upon the lands of the district is a lien against the property assessed from and after the date of such assessment and the lien for the bonds and other charges of such district shall be a preferred lien and superior to any other lien which may be created and such lien shall not be removed until the assessments are paid or the property sold for the payment thereof.

"SEC. 27. On or before the first day of September the Commission shall publish a notice in a newspaper of general circulation published in each county in which any portion of the district may lie that such assessments are due and payable and will become delinquent at six o'clock p.m. on the last Monday of October next thereafter and that unless paid prior thereto ten per cent. will be added to the amount thereof and also the time and place at which payment of assessments may be made, which notice shall be published for the period of two weeks. The Commission or its representative must attend at the time and place specified in the notice to receive assessments which must be paid in gold or silver coin. He must mark the date of payment of any assessment in the assessment book opposite the name of the person paying and give a receipt to such person specifying the amount of the assessment and the amount paid with the description of the property assessed; and on the last Monday in October at 5:00 p.m. of each year if unpaid assessments are delinquent and thereafter the Commission must collect thereon for the use of the district an addition of ten per cent.

"SEC. 28. On or before the first day of December the Commission shall publish the delinquent list which must contain the names of the persons and the description of the property delinquent and the amount of the assessments and costs due, opposite each name and description. There shall be appended to and published with the delinquent list a notice that unless the assessments delinquent, together with costs and percentage, are paid the property upon which such assessments are a lien will be sold at public auction. If the land, on which such assessment is delinquent, is held under a possessory right under the provisions of this Act, such publication shall state that such possessory right is subject to cancellation by the Commission, and if the assessments against such land are not paid within sixty days from the date of such delinquency such right shall be canceled and the land offered for re-entry in the manner provided by section 22 of this Act. The publication must be made once a week for three successive weeks in a newspaper of general circulation published in the county in which the property delinquent is situated, but if any property assessed to the same person shall lie in more than one county then such publication may be made in each county in which any portion of such property may lie. The publication must designate the time and place of sale; the time of sale must be not less than twenty-eight days from the first publication and the place must be at some point designated by the Commission within the district; *provided, however*, that if there should occur any error in the publication of the sale of the delinquent property which might invalidate a sale made thereunder and such error if discovered prior to the sale thereunder, the Commission shall, at once republish the sale of the property affected by such error, making such publication conform to the provisions of this Act and the time of sale designated in such republication must not be less than twenty-one nor more than twenty-eight days from the first republication and the place of sale must be at some point designated by the Commission within the district and stated in such republication.

"SEC. 29. The Commission must collect in addition to the assessments due on the delinquent list and ten per cent. added, fifty cents on each lot, piece or tract of land separately assessed. On the day fixed for the sale or some subsequent day to which the Commission may have postponed it, notice of which must be given, the Commission or their representative, between the hours of 10:00 o'clock a.m. and 3:00 o'clock p.m. must commence the sale of the property advertised, commencing at the head of the list and continuing alphabetically or in numerical order of the lots or blocks until completed. The Commission may postpone the day of commencing the sale from day to day, but the sale must be completed within three weeks from the day first fixed.

"SEC. 30. After receiving the amount of assessments and costs the Commission must make out, in duplicate, a certificate dated on the day of sale, stating, when known, the name of the person assessed, a description of the land sold, the amount paid therefor, that it was sold for assessments, giving the amount and year of the assessment and specifying the time when the purchaser will be entitled to a deed. The certificate must be signed by the Commission or its representative and one copy delivered to the purchaser and the other filed in the office of the County Recorder of the county in which the land is situated.

"SEC. 31. The Commission or its representative before delivering any certificate must, in a book enter a description of the land sold, corresponding with the description in the certificate, the date of the sale, purchasers' names and amount paid, regularly number the description on the margin of the book and put a corresponding number on each certificate. Such book must be open to public inspection without fee during office hours when not in actual use. On filing the certificate with such County Recorder the lien of the assessments vests in the purchaser and is only divested by the payment to him or to the Commission for its use of the purchase money at two per cent. per month from the day of sale until redemption.

"SEC. 32. The assessment book or delinquent list or a copy thereof certified by the Commission or its representative showing unpaid assessments against any person or property is prima facie evidence of the assessment, the property assessed, the delinquency, the amount of assessments due and unpaid and that all the forms of the law in relation to the assessment and levy of such assessments have been complied with.

"SEC. 33. The owner or person in possession of any property offered for sale for assessments due thereon may designate in writing to the Commission prior to the sale what portion of the property he wishes sold, if less than the whole. But if the owner or possessor does not, then the Commission may designate it, and the person who will take the least quantity of the land, or in case an undivided interest is assessed, then the smallest portion of the interest and pay the assessments and costs due, including two dollars for the duplicate certificate of sale, is the purchaser. If the purchaser does not pay the assessments and costs, before 10:00 o'clock a.m. the following day, the property on the next sale day must be resold for the assessments and costs. But in case there is no purchaser in good faith for the same on the first day that the property is offered for sale then when the property is offered thereafter for sale and there is no purchaser in good faith for the same, the whole amount of the property assessed shall be struck off to the Commission as the purchaser and a certificate of sale shall be issued therefor. The Commission as a purchaser at such sale shall be entitled to the same rights as a private owner and the title so acquired by the Commission, subject to the right of redemption herein provided, may be conveyed by deed, executed and acknowledged by the president and secretary of such Commission; *provided*, that authority to so convey must be offered by resolution of the Commission, entered on its minutes, fixing the price at which such sale may be made and such conveyances shall not be made for a less sum than the reasonable market value of such property.

"SEC. 34. A redemption of the property sold may be made by the owner or any party in interest within one year from the date of purchase or at any time thereafter before a deed has been made and delivered. Redemption must be made in gold or silver coin, as provided for the collection of state and county taxes and when made to the Commission it shall credit the amount paid to the person or his assignee. On receiving the certificate of sale the county recorder must file it and make an entry in the book similar to that required of the Commission. PETITION.

Senator Cohn presented the following petition, which was read and ordered printed in the Journal:

To the Honorable Senators of the State of California:

GENTLEMEN: We, your petitioners, are employees of Central California Traction Company, a corporation organized under the laws of the State of California, which now is, and for many years past has been, engaged in operating a street railway in the city of Stockton, and its environs. We are now engaged in the respective capacities set opposite our names, and we respectfully and earnestly ask you to support and vote for the jitney bus taxation and [illegible] measures, for the following reasons:

Our employer has expended large sums of money in the city of Stockton, and gives steady employment to a great number of men. We are in a position to know that the jitney business has greatly reduced the revenues of our employer, and that such reduction will continue, and we know that the decrease in carrying passengers will cause cars to be withdrawn from use, and the natural result thereof will be the discharge of employees. Of course, we can not tell which of us may be discharged, but we feel that you well know the result of men being out of employment, especially when they are paying installments upon homes for their families.

While we do not know the amount of money invested by our employer, we feel that it must be a large amount, and we know that one can run a jitney bus with a very small investment, and a very small expense. As we understand the law now to be, those engaged in a jitney bus business are not compelled to pay anything for the franchise or right to conduct said business, neither do they have to pay for keeping the streets in repair, nor do they have to pay any percentage of their receipts, neither do they have to pay toward the revenues of the State, nor any of the other large expenses that our employer is called upon to pay in the franchise of the laws of this State.

We believe that the provisions contained in the hereinbefore named measures are fair, just, and proper, and we respectfully request that you support and vote for the same.

Thanking you in advance for your support, your petitioners will ever pray, etc.

W. B. EVANS, and 44 others.

Dated: Stockton, California, April 24th, 1915.
